This is but one of the extraordinary tests conducted by The Mann Hardware Company, manufacturers of "High Standard" Paints, in introducing Nepto-Lac Quick Drying Enamel—a heat proof and moisture proof product for household use.

Another feature of this new product, Nepto-Lac, is that it can be used outside on Automobiles—Porch Furniture and Porch Floors—as well as inside on Furniture—Radiators—Walls—Cooking Utensils, etc.

Householders who have attended these remarkable tests are enthusiastic about Nepto-Lac, not alone for its extraordinary performance under heat and its resistance to moisture, but equally for its smoothness of finish—beautiful color range—ease of application and economy—the price being less than that of many ordinary enamels.

### MR. PLINY LOUCKS

In 1922 he disposed of this business and retired to Markdale. In 1926 he went into the garage business with his son, Cecil, at Chatsworth and resided there until the time of his death. The late Mr. Loucks was held in the highest esteem and made many friends.

On June 17th, 1880, he married Miss Alice Fetterley of Russell township and she passed away in 1929. He is survived by two daughters and three sons, namely: Mrs. Stella Wyvill of Markdale; Miss Bella and Walter in Vancouver; Edwin at Flesherston, and Cecil in Chatsworth. Fourteen grandchildren also survive. Two daughters passed away some years ago and Mrs. Vera Cutting died about seven months ago.

### EDUCATIONAL COSTS

The following letter has been sent to all High and Continuation School Boards in Grey County and is self explanatory:

"At the January Session of the Grey County Council, they recommended a joint meeting of two representatives of each of High and Continuation Schools of the County to meet a committee appointed by the County to discuss Grants and Salaries of teachers.

"We would ask your board to refrain from making any arrangements with your staff regarding salaries until after this meeting to be held in Markdale on Wednesday, April 25th, at 2 p.m.

"If this plan is adopted, a uniform reduction in salaries could be put into effect, as your County Council feel that the cost of Education must be reduced if the County of Grey is going to be in a position to meet its financial obligations.

"We would ask your Board to cooperate with our committee by sending your representatives to the meeting in Markdale on April 25th.

"Any suggestions from your board would receive consideration by the committee."

T. J. Brodie,  
Chairman of Education Committee,  
R.R. 2, Holland Centre,  
March 31st, 1933.

### MARCH HOSPITAL NEWS

The private hospital conducted by Dr. R. L. Carefoot is filling a very important place in our community, and is being well patronized. In spite of the depression the doctor and staff have been able to keep out of the ranks of the unemployed. Extra help has to be called in frequently. The remarkable success in operations and the excellent nursing talent are having the natural effect of widening and stabilizing the reputation of the institution.

Several patients in for operations were able to return to their homes, including Miss Edith Betts of Rock Mills, whose case was rather critical but she left for home doing well. Mrs. Ben. McKenzie of Ceylon, an emergency appendicitis case, is doing as well as can be expected.

There have been a number of other cases in for X-ray treatment, obstetrics, etc.

Her Brussels lace veil was caught in a simple cap effect with clusters of orange blossoms, and she carried a shower bouquet of lily-of-the-valley. ## Cream Facts

It may interest our patrons and others to know that during our six years of operating the Markdale Creamery we have enjoyed a steady increase of production from year to year. Previous to our management Markdale Creamery produced 200,000 lbs. a year and now we have increased the production to such an extent that in the year 1932 we had a production of over 550,000 lbs.

In the Dundalk plant, previous to our management, the creamery produced about 125,000 lbs. a year. In the first year of our management we increased the make to close to 300,000 lbs. In this plant we did not start to operate until about May 15, 1932. This is a record which we are proud of and it should speak for itself.

As the cream season of 1933 is close at hand we are again soliciting your full cream patronage. As in the past we will pay the highest market prices.

You will greatly benefit by giving us your full patronage because by doing so it helps to keep our manufacturing costs low, therefore enabling us to pay you the highest prices for your cream.

We ask those who are saving last year's cream bills to compare our prices to those paid by other creameries, including creameries in Toronto.

We again ask you to bring in your cream to our Creameries regardless of quantity, and as soon as the roads are fit our trucks will call on you as in the past seasons.

Thanking you for your past patronage,
