Miracles of the Present Day
Mrs. J. was happy in her home with her husband and two little children. It is true they didn't have much but until the husband took sick and their savings were used up, life was pleasant enough. Long days and nights of worry and anxiety coupled with extra work had their dire effect, however, and a breakdown caused the doctor to secure her admission to the Muskoka Hospital for Consumptives.

She was almost overwhelmed with hopelessness, but before very long, the kindly medical and nursing attention, the uninterrupted rest, the fresh air and good food, worked their miracle. Now Mrs. J. is quite sure that she will go home soon, to face and overcome life's difficulties—such being the effects of the return of hope and health which so often are the gifts of the Muskoka Hospital.

This work needs the generous support of many friends, without which it could not be carried on. A subscription from you will be gratefully received. Please send it to G. A. Reid, 222 College St., Toronto 2.

Nepto-Lac
QUICK DRYING ENAMEL

UNDER WATER

A Porcelain Enamel That RESISTS MOISTURE and HEAT!

Here it is! The latest development in Household Quick Drying Decorative Finishes—a triumph of paint engineering!

Here is an enamel that dries free from brush marks; that requires no undercoating; that can be brushed back and forth as frequently as necessary without pulling; that requires no special thinners; and that is more economical than most ordinary enamels. In addition to all these extra ordinary qualities, it is HEAT and MOISTURE RESISTANT.

Low Brothers Nepto-Lac which is recommended for Furniture—Woodwork—Walls—Floors—Automobiles—in fact everything on which a colorful decorative finish is desired—whether metal or wood—for outside or inside—has been subjected to the Boiling Oil test; to Immersion in Water for 726 hours and to service on cooking utensils.

When next you have a job of painting to do, use Nepto-Lac—a product of extraordinary in performance as it is economical in cost.

CANADA—THE IDEAL VACATION LAND

A COUNTRY OF SCENIC CHARM AND OUTDOOR RECREATION
UNEXCELLED IN ABUNDANCE AND VARIETY OF HOLIDAY ATTRACTIONS

Excellent Fishing
Canada's fishing waters, on account of their extent and diversified nature, provide an exceptional range of sport for the angler. The game fish include, salmon, brook trout, lake trout, bass, muskellunge, pike, pickerel, grayling, steelhead and tuna. Intelligent protection and constant re-stocking help to keep up the supply of fish in the popular districts, while in the more remote areas there are still plenty of virgin waters. The cost of fishing licenses is moderate and the open seasons are long.

Government Bureau Free Information Service
A number of specially prepared booklets on Canada's recreational attractions and automobile road maps indicating the main connecting highways between one province and another may be obtained free of charge by adults from the National Development Bureau of the Department of the Interior, at Ottawa. The Bureau also has on file information concerning practically all phases of recreation in Canada, which will be gladly provided, upon request. In order that the most complete information may be supplied it is desirable that applicants be as specific as possible as to the areas in which interested.
