7 p.m., Evening Service.

WODEHOUSE

Service in New England church
next Sunday at 11 a.m.
This district has been right in
line with some of the most remark-
able happenings of recent times.
Last August the eclipse of the sun
was visible here. On Saturday of
last week the great Italian sea-plane
fleet passed over-head, presenting
another interesting spectacle. Sun-
day afternoon the community was
visited by a very severe hail storm.
No serious damage resulted and the
rain was a great blessing. Who
would not live near Wodehouse?

It is with pleasure that we are
able to announce the success of the
pupils of S.S. No. 16, both in the
entrance class and the other classes.
There was not a failure. The six
entrance pupils succeeded, Miss Hol-
den Wiley passing on her year's work.
We can also say that there have
been no failures in any of the class-
es since Miss Lavina Wiley took
charge four years ago, and to her
we extend the heartiest congratula-
tions and best wishes for her con-
tinued success and also to the schol-
ars of this school.

Quite a number from here cele-
brated the 12th of July in Markdale
and report a good time.

Master Lloyd Wiley of Markdale
is visiting with his cousin, Elgin
Wiley.

Mr. John Clark was thrown from
a load of hay recently and had sev-
eral ribs injured.

Mr. and Mrs. T. I. Fawcett and
Edgar attended the funeral near
Dundalk of the late Herbert St.
John.

A number of the farmers here are
done haying and are preparing to
cut their fall wheat.

Master Harry Allen of Toronto is
visiting with Mr. and Mrs. S. Wiley
and family.

(Intended for last week.)
Mr. and Mrs. Harold Fawcett
treated their many friends to a
party on Monday evening. An en-
joyable time was spent and many
joined in the old-time butterfly
whirl.

The play, "Aunt Susan's Visit",
staged by the Ebenezer talent at
New England, was much enjoyed by
all.

Mrs. A. A. Thompson, who has
been visiting with her sister at
Montreal, Que., since May, returned
home on July 11th.

Mr. Edgar Fawcett visited on Sun-
day with Mr. and Mrs. Harold E.
Fawcett of Kimberley. He attended
the Orange Service in the village in
the evening conducted by Rev. S.
McAusland.

We are sorry to learn that Mr.
John Wiley is confined to his bed.
He has just passed his 84th birth-
day but we hope that he will rally
and continue in good health.

Mr. and Mrs. John Hicks of
Owen Sound visited at the homes of
Mr. and Mrs. Ed. Wilcox and Mrs.
W. J. Cornfield this week.

Mr. and Mrs. Russell Fawcett and
several friends of Swinton Park
spent an evening with the former's
brother at New England.

Mrs. Stewart of Toronto visited
recently with Mrs. Wm. Thompson
and other relatives of this district.

EBENEZER

Mr. Warren Douglas of Toronto is
visiting with Mr. and Mrs. W. R.
Douglas and family.

Miss Deil Brodie of Markdale
spent a few days with Mr. and Mrs.
Victor Brodie.

Mr. and Mrs. R. C. Cockburn,
Jean and Raymond, of Toronto were
visitors with Mr. and Mrs. Thos.
Freeman and family during the
past week.

Mr. and Mrs. F. Taylor and Jack
and Mrs. T. Freeman spent an even-
ing with friends in Chatsworth re-
cently.

NEWS AND INFORMATION FOR THE BUSY FARMER

Furnished by the
Ontario Department of Agriculture
Minerals For Sheep
A suitable mineral mixture
containing a small amount of iodine in
some form should be available to
sheep and lambs at all times. The
following mixture is recommended
by the Dominion, Quebec, Nova
Scotia, P. E. I. and Ontario Depart-
ments of Agriculture: Salt 50 lbs.;
sulphur, 2 lbs.; oxide of iron, 1 lb.;
ground limestone, 20 lbs.; potass-
ium iodide, ½ to 1 ounce. This
should be mixed and placed in a
self-feeder box from which the
sheep may be able to help them-
selves, or two pounds of the mix-
ture may be fed with each 100 lbs.
of grain.

Preventing Pig Losses

One of the common causes of
death among sucking pigs is nutri-
tional anaemia. The critical period
is between two and four weeks of
age. During this period and until
weaning, the sucking pig must have
access to some source of iron in ad-
dition to the mother's milk. Pro-
fessor Knox, O. A. C., states that
one of the simplest means of pre-
vention of loss is to place sods, one
foot square in size, which have been
treated with a solution of ferric
sulphate, in a small pen, one sod
for each pig each week. This sul-
phate can be sprinkled on the sod
with an ordinary watering can, and
the strength of the solution should
be one teaspoonful of ferric sul-
phate to one quart of water per sod.
It is wise to secure sods from areas
where pigs have not frequented for
at least one year, in order to pre-
vent possible parasitic infection.

Should Prune Shrubs

According to J. F. Clark, horti-
cultural fieldman, Agricultural So-
cieties Branch, shrubs that bloom in
spring should be pruned after the
flowering period. After flowering
growth takes place from the tips of
last year's branches, but there is
usually a tendency for shoots to al-
so start below the flowers. Severe
pruning is not recommended, but
simply a thinning out of the oldest
wood.
Lilacs bloom from the topmost
buds and should be pruned after
flowering so as to encourage
growth of the individual twigs by
removing the older wood and the
suckers at the base of the shrubs.
The Japanese Barberry requires
only to be pruned so that the long-
est and most straggling branches
do not cause the bushes to be un-
sightly. When branches become
longer than required, cut them back
which will have the effect of mak-
ing the small twigs start out below
the cut.
Forsythia (Golden Bells) need a
yearly pruning to keep it within
bounds and to preserve a natural
but not a wild appearance.
The following shrubs should be
pruned when their blossoms fade:
—Deutzia, Dogwoods, Forsythie,
Honeysuckles, Lilacs, Magnolias,
Mock Orange, Snowball, Spiraea,
Weigella and Climbing Roses.

arrange to visit our showrooms... today.
OLDSMOBILE Six & Straight Eight
MARKDALE GARAGE CO. MARKDALE, ONTARIO

NO INSTALLATION COST
NEW LOW RATES
NO WASTE
Never has Hot Water Heating
Cost so Little

HOT WATER!

As much as you need
at a turn of the tap

as you need—a whole tankful at a time. All
waste is prevented. Tanks are insulated to
retain heat. Automatic control shuts off current
when water is at desired temperature. At any
hour, hot water is available without trouble,
worry or attention.

Mail the coupon below now. Secure early
installation. Electric water heating, under the
Hydro plan of free installation—and at the new
low rates now in force—will cost you less and
give you more than any other system of water
heating. Mail the coupon now to your local
Hydro officials or municipality.

SEE your local Hydro Commission for further
information about the Hydro Plan of Free
Electric Hot Water Heater Installation.
Perhaps you have long desired the convenience
of continuous, automatic, hot water heating in
your home. If so, the Ontario Hydro Com-
mission offer of free installation of flat rate
electric water heaters in Hydro homes is your
opportunity.
Remember, installation of these heaters does
not cost a cent. And all heaters are automatically
controlled. A turn of the tap gives you hot
water instantly—hot as you need and as much
