## CREAM

Selling your cream away from your local plant is like selling all your hay and grain off the farm. When you sell the hay and grain off your farm, the farm soon goes to ruin. When you sell your cream away from your local plant you are not helping to build a home market for your dairy products.

We are here to give you the very best of creamery service even in the months when the quantity is small. We therefore ask you to give this a consideration and give us your full patronage during the summer months when the quantity is more plentiful.

Our motto of doing business is always to pay Highest Possible Market Prices; Accurate Weight and Test; Best Possible Service.

We are open Tuesday and Saturday nights.
