haps we have been feeding her too highly concentrated food. Perhaps we have upset her during a meal. Per-haps some playmate annoyed her. There are so many possible reasons. We, ourselves, may be one of them! Were we feeling our best? Some days we overlook a great deal more than

we do on other days.
Whosesoerer the fault, bedtime should be a time of perce, a time when Mother forgets the little hurts and grievances of the day. Quickly the child who feels your loving confi-dence will resoite never to offend again. This is a chance to show your understanding, that wonderful understanding about which mothers boast!

To dwell on an injury inflicted by a friend is bad enough; to harbor ill will because of the peccadilloes of a little child is cruel. It is bad for the child's health, bad or its temper, bad-for its character. Mothers should forgive and forget.

I have heard some say: "Of course

I have forgiven my little girl, but she must be taught to remember. If so, try some other time than bedtime for reminding her.

To-morrow will be a new beginning.

You do not want your child to be bur-dened with the wrongs of yesterday or to-day.

Do we like to sleep under a heavy

Do we like to steep under a neavy cloud, ourselves? Do you remember ever crying yourself to sleep? If so, nover subject your child to the same misery. It is a real tragedy to a child to have to go to sleep without a moth er's good-night kiss .- Issued by the National Kindergarten Association, West 40th Street, New York City These articles are appearing weekly in

### Claims Newsprint Production Had Origin at Phelpston

That the first newsprint manufac-tured from pulpwood had its origin at Phelpston, Sincoe County, is the claim of a correspondent writing on the Homemakers' Page of a recent

issue of The Globe,
"You all know that newsprint is manufactured from pulpwood (spruce), but this is not an old process. In the early part of 1875, A. J. Phelps of the N. & A. J. Phelps Lumber (Camaan, operating a large mill at Company, operating a large mill at Phelpston, Flos Township, County of Simcoe, received from John Riordan, who owned and operated the Lincoln Mills at Merritton, an orde for one carload (8,000 feet) of spruce for experimental purposes. The late Matthew Lawson Jr. and William J. Patton, who now resides in Hamilton felled the trees and cut them into As the G.T.R. would no logs. As the G.I.A. would not carry round timber, the logs were taken to the mill, where slabs were sawed off, after which they were hauled to Barrie, loaded and shipped on the old Northern Railway to Toronto and transhipped from there to the state of the Grand Tunk Merritton on the Grand Trunk

"Experiments proved that spruce could be bleached and manufactured into newsprint, and that was the first carioad of spruce (or any wood) used for the purpose. Since then it has been found that poplar, besswood and other woods can also be used. Prior to 1875, pine (sawdust and shavines) were used with a sample of the ground. He jumped on it, stamping, from the ground, He jumped on it, stamping, and that it lay shattered in a thousand powdered pieces. shavings) were used with rags, felt. rope, etc., in the manufacture of wrapping paper, which was not like the fine quality papers used for this irpose nowadays.
"In the book", "Pioneers of Simcoe

County", "you may read of A. J. but you'll not read of the carload of spruce, I got the story from my father, W. J. Patton, who is still hale and hearty, although November 20 marked the seventy-eighth milestone of his life's journey."

### Evening Make Up Should be Flattering

Evenng make-up should be flattening. A light, inconspicuous, easy-to apply make-up is perfectly all right for the street, but it will look like nothing at all under artificial lights. Then you need a little more color and a bit of eye make-up which you wouldn't ordinarily use on the street or in the office.

Have a good light over your dress-

ing table and stand so that it shines on your face while you are making

up.

Clean your face and neck with cleansing cream and skin tonic before you get into your bath. If your skin feels at all dry, put on a nourishing cream and leave it on until you move every trace of it before you use a foundation lotion.

A good foundation lotion is a neboth at night and during the It's a good idea to have which matches the tone of your skin and be sure and put it on your neck as

well as your face.

After the foundation, blend on either liquid or cream rouge. that there are no rough edges and that it is not placed too low on your

Powder follows the rouge and then an eye-shadow. Be careful not to get powder on your eye-lids. Brush your brows and lashes after you have powdered. Eye shadow should not

extend out on the cheek bones. Mascara and eyebrow pencil, if you use them, are the next to the last steps. Lipstick is the final one.

Each man is a hero and an oracle to somebody, and to that person what-ever he says has an enchanted value. heavals.

### Royal Bank Annual Statement Shows Strong Liquid Position

Liquid Assets At \$362,471,645 Are Equal To 55.76 Per Cent. Of
Liabilities To The Public—Total Assets At End of Year Were
\$729,260,476 — Gratifying Increase Of Over \$18,000,000 In Canadian Savings And In Demand Deposits - Many Businesses Evidently Showing Large Turnover.

to a total of \$362,471,645, equal to securities.

55.76% of Habilities to the public. It While cer is understood that a particularly interesting feature of the year was an increase in Canadian Sayings and Demand for their products in recent increase in Canadian Sayings and Demand Deposits. A lower volume of commercial loans and increase in the portfolio of Government bonds is in mally low figures. Both these factors modation. The necessity for investing larger amounts in Government bonds is one of the larger amounts in Government set and a year ago, other industries have experienced a keen deemand for their predicts in recent months, with the result that inventories have been brought down to abnormally low figures. Both these factors have contributed to reduce the need is reflected in a decrease of \$44.419. modation. The necessity for investing larger amounts in Government 1954 in loans and discounts. Commertional is one of the causes contributing to a reduction in earnings, but against \$250,552,256. Call loans in the causes of the causes contributing to a reduction in earnings, but against \$250,552,256. Call loans in the cause of the call and cause and abroad were reduced by ing larger amounts in Government bonds is one of the causes contributand doubtful debts and providing for \$3,598,571 during the tweite month cost of management, profits were amply sufficient to cover the payment of dividends and the usual appropria-

tions, leaving \$216,650 as a further contribution to profit and loss account The unsettled state from which bus ness is now emerging, has emphasized the usefulness of strong inner re-serves. The directors' recognition of this fact is evidenced by a transfer of \$15,000,000 from Reserve Fund to reim burse the inner reserves of the bank and to provide reserves which they consider adequate for future contin gencies. This action is in line with adjustments which have been made by adjustments which have been made by many of the leading and most power-ful banks in all parts of the world, and will be regarded as a prudent and constructive move. The published Reserve Fund is maintained at the substantial figure of \$20,000,000 and \$1,383,604 is carried forward to the credit of profit and loss account.

Strong Liquid Position. Total assets shown by the Statement for the fiscal year which ended November 30th last are \$729,260,476; November 30th last 471,645 aggregate 55.76% of liabilities to the pu cash and bank balances total \$157. Thursday, January 11th.

The Annual Statement of The Royal 659.215, equal to 24.26% of public

Why keep up an unpleasantness with should afford satisfaction to the public as child over night? The child might lie, as well as to shareholders. The have been suffering from some child-statement discloses a very strong position. There is always a reason for a child's naughtiness. Perhaps we have been fauding but the property of the year which ended November 26th last Dominion and Provincial Government

While certain lines of business are

Canadian Deposits Increase A feature of the Bank's year was a perease of \$18,610,694 in Canadian de nand and savings deposits. As Cana dian demand deposits represent in the main the working balances of business and farming customers, the substantial upward move in these figures is of particular interest as an indication of increased commercial and industrial

activity.
Shareholders will be interested seeing that despite the lower level of interest rates which particularly af fected the return from liquid asset nected the return from liquid assets maintained at reserve centres, profits for the year were \$3,901,649. This amount fully covered dividend requirements of \$2,575,000, contribution to Officers' Pension Fund, \$200,000; appropriation for bank premises, \$200,000; appropriation for a premise for a propriation for a premise for a propriation for a premise for a p 000; reserve for Dominion Government taxes, \$310,000, and left \$216,650 to be added to profit and loss account making a total of \$1,383,604 to be car ried forward to the next fiscal year. The Annual General Meeting of th shareholders will be held at the Head Office of the Bank

## A "Watch" Story

A priceless account of rehearsal is conducted by David Belasco, given by Achmed Abdullah, novelist and playwright (in his very lively reminiscences, "The Cat Had Nine Lives"in which Achmed goes the Cat a few better, but that's another story.) The personal performance of Belasco dur-ing rehearsals of a new play, it seems, never varied. Always before the re hearsal downstairs, he would rehearse himself upstairs. He would go over each gesture, each intonation, each sign, each word of praise or blame each pyrotechnical display of temper which he could turn on and off like a tap.

Flattery, during the first week wa Flattery, during the last was the second week of rehearsal—and promptly Belasco changed his tune. He would work himself up to a fine frenzy.

"And finally," chuckles Achmed Ab dullah, "in a terrifying, frenetic rage

a rage so beautifully rehearsed and yet so well stimulated that he deeived everybody and possibly, least for the moment, deceived him

"There was complete silence. The actors exchanged frightened looks. Then he stumbled back a step. He stared at the ruin on the floor. He drew an arm over his eyes.
"'Dear Lord—' he mumbled — and

sobbed once-'my mother's watch my dear, dead mother's last gift to

He trembled. It was superb. The entire company, including myself (it was a play by Achmed Abdullah unras profoundly affect

"He looked up.
"'Forgive me, children,' he whispered humbly. 'I—oh—I am ashamed
of myself. So ashamed. I—I am my own very worst enemy.' Again he sobbed. He mumbled disconsolately 'My dear, dead mother's watch. . . .

"Another silence. A single tear rolled down his cheek. He smiled sadly. Then he went on: "'And now-children-will you try

-to work-for me? I-I am so 

it, with renewed enthusiasm and vigor and, really, doing beautifully, while Belasco pulled at my sleeve and winking at me broadly, forgetting the insults and bullying of the past week -spoke to me in confidential under

tone: "That went over big, you damne

heathen—eh?'
"You bet!' I agreed.
"He continued: Remind me to buy another one of those dollar watches omorrow-will you?" "I laughed. 'Guv'nor,' I suggested 'you can't break your mother's watch

twice in the same place." "But he almost did one time; dur ing the rehearsal of 'The Comedian. At the very last second I stopped him. Even so, I have an idea he would have got away with it; would have exclaimed quickly, after smash

ing the second watch:
"'Ah-my grandmoth -my grandmother's watch my dear, dead grandmother's last gift to me. . . '"

Genius may be swifter than perseverence, but the latter wins in the

long run. "Even the game of golf has evils," says a writer. And its up

## Heroine of Fire Given

A fine gold watch with an inscription and about \$400 has been award ed by the Carnegie Foundation to Gunhild Leimer, aged 15, of Stockholm Sweden, for her heroic deed in saving

sweden, for her heroic deer in saving her five younger sisters and brothers from being burned to death.

Gunhild was in charge of the other children in the upper storey of the home in Stockholm, the lower part of which was in flaines. She took the children one by one by their hands, stretched down as far as she could om a window and in that way help ed them to escape unharmed. One of ed them to escape unnarmed. One of the children, a 10-year-old girl, re-fused to risk the jump. Although al-ready surrounded by flames and smoke Gunhild took time to let her down to the ground by means of a

When the plucky girl herself was ready to jump she was already badly burned and the fire and smoke blinded her so that she fell on her back and fractured two vertebrae, with the result she became an invalid for life The reward will make it possible for self in the bargain, he pulled a watch from his pocket. He slammed it to learn some trade that may enable her to get medical treatment and her to make a living.

Dr. Knud Rasmussen,

54 years old.

Dr. Rasmussen was seriously ill when he was brought home November 3. He was removed from the ship to his residence in an ambulance. It was said at that time that only a transsal at that time that only a transfusion aboard ship had saved his life.

Dr. Rasmussen was born at Jakobshavn, Greenland, June 7, 1879. His ancestors on the maternal side were incestors on the maternal side were

Eskimos. After making his first expedition to Greenland in 1902, he visited all of the known Eskimo tribes between 1905 and 1924, studying their customs.

Later, he announced he had ascer-tained that the Eskimos originally were Indians who had wandered east and west from the coast. Last year, the explorer was at the

ead of an expedition which surveyed 12,500 miles of Greenland's southeas coast, and measurements taken by that expedition proved that Greenland

was moving westward 20 yards a year.

The immediate cause of the explorer's death was a blood clot which stopped his heart after he had appear ed well on the road to recovery from an attack of botulism.

### Taxis for Officials,

British Guiana Plan Georgetown, British Gulana. — The British Gulana Government will dis-pense with its departmental motorcars next ear if the recommendations of the Traveling Allowances Committee are adopted by the Legislative Council. The committee holds that the Gor-ernment should us more hired cars in view of the cheap rates, which are as

low as 12 cents a mile. It proposes a fixed allowance up to \$24 a monthwith an additional \$16 a month if the officer is authorized to employ a chauf-feur—for officers who travel an average of 200 miles and over and wh are required to keep and use their own

ars for the purpose. Officers who have to travel less than 200 miles and who have cars of their own are cutitled to an allowance of up to 12 cents a mile. The motorcycle allowance is \$15 a month, the blcycle allowance is \$2 a month.

-Leslie Nelson Jennings, in The New York Sun.

### Muff Bags Among

- New Accessories -Muff bags can be had for daytime and evening wear. They are developed in fur, fur-like fabrics, feathers and fabrics. Either utilitarian like wools, or dressylike velvets. Most of the new styles in daytime bags are not discernible as a muf resembling instead a moderate sized pouch bag, which closes at the ton with a zipper, clip, or tricky fasten-ing. The muff is in the fulness of he pouch.

The little evening muffs of feather ire the darlings of fashion right now. They were seen in several styles and in the range of this season's popula after-dark colors. These little feather pags are effective compliments to feather-trimmed frocks, or to feather capes.

To Live to Be 100

We may listen with especial inter-est and respect to the advice to wonen given by Dr. Marie Charlotte de Coliere, Davenport, who was born, so she says, one hundred and nine years Arctic Explorer, Dies Copenhagen, Denmark. — Dr. Knud Rasmussen, Danish Arctic explorer, is going about on a lecture tour object of proof poisoning contracted on his last expedition to Greenland.
