Mrs. Robert Murray of St. Vincent, Mrs. Robert Murray of St. Vincent, Mrs. Robert Murray of Euphrasia. Mrs. Robert Murray of St. Vincent, Mrs and if there is any real reason, it would not take long for the Board to find it. I quite understand that there may be occasions when business is done out of town for no particular reason at all, but I rather think that a thorough investigation would disclose that most people who buy in Owen Sound and other places have some excuse for doing so. If the excuse is a good one, it would be up to our merchants to arrange their husiness so as to take care of the trouble, or, if that can't be done, no one should complain of the out-of-town buyers. If the excuse is no good, a certain amount of propaganda could be used to show the public the advantages of buying in Markdale. Certainly the situation won't right itself without some effort being made on our part and I believe that we should establish the Board at once.

Board at once.

'Among other matters that the Board deal with in trying to improve business here would be the increasing of our summer tourist trade. We have several distinguished summer visitors in this locality who are good customers, and we could have a lot more, if Markdale were put on the map. It wouldn't take very much publicity to do so either; just a few more news items in the Toronto newspapers regularly. Until Mr. Carter's advertisement was reported, I don't believe Markdale had received any publicity in any Toronto papers for years, and then the credit goes to Dundalk's excellent publicity agent. Board at once.

goes to Dundaik's excellent publicity agent.

Then another thing, the Board could act as a clearing house for complaints among the merchants themselves, and everyone knows that it is a good idea to have a clearing of the air now and again. From what you are I gather that susince of the air now and again. From what you say, I gather that suspicion and jealousy defeated the last attempt to establish some such organization, and those are just the things that we want to get rid of in this town, and I believe that a Board of this kind would do that if it were given half a chance by those who would benefit by it, if they could only be brought to see it.

Finally, the object of the organization ought to be, BETTER SERVICE AND BETTER BUSINESS, and it should be completely voluntary and opposed to anything that would restrict business or coerce anyone in his conduct thereof.

Yours very truly, W. E. Harris.
