Electors of South Grey

On Tuesday, June 19th, the people of this Province will determine into whose hands shall be entrusted the administration of its affairs for the next four or five years. In these difficult times it is even more particularly important that our business affairs should be under the guidance of men of experience and sound judgment, men of business capacity, reliable men, men above reproach.

THE ADMINISTRATION OF HON. G. S. HENRY IS WORTHY OF YOUR CONFIDENCE BECAUSE:

1. The members of the Cabinet are men tested, tried and proven.
2. Financial solvency has been maintained - with a balanced budget.
3. Essential services have been maintained and extended without increased general taxation.
4. Social Welfare and Unemployment Relief measures have been administered satisfactorily.
5. Provincial credit was never higher. It is comparable with the Dominion itself.
6. The development of a dependable British export market for standardized farm products under the direction of the present Minister is already proving its worth to agriculture.
7. This is no time to consider the question of experimenting with a new administration under the direction of men without a background of achievement.

Win Kernahan

HOW WILL YOU VOTE?

You can't vote Liberal.—There is no Liberal candidate.

You can hardly afford to vote "Independent".—There will be no Government of "Independents" and an Independent in the Legislature is, at best, but a lone voice crying in the wilderness.

You can vote - Kernahan—Because in so doing you will be supporting a candidate who on his election will be associated with a party in Government - whether they sit to the right or left of Mr. Speaker.

CONSCIENCE is torturing not one, but hundreds of careless Ontario motorists because of tragedies like this. Honest, decent citizens for the most part, perhaps neighbours of yours, but - somewhere in Ontario are the drivers who last year killed or injured 1,942 innocent children. For the rest of their lives these men and women will vainly regret having failed to obey the few simple driving rules which keep motorists out of trouble and save life, limb and property.

Because so many drivers ignored these rules 8,280 persons were killed or injured on our highways in 1933. Every death, every accident was caused by human negligence! Isn't it time for us to do a little thinking?

Do you drive carefully... always? You should, if only for your own protection. Remember that over 50 per cent of the victims of fatal accidents last year were occupants of motor vehicles.*
