Eden in Sweden To Win Markets For British Goods

Stockholm, - England's efforts to win a fresh hold upon Scandinavian markets, especially in Sweden where economic recovery has made great gains reached a high point with the arrival of Capt. Anthony Eden, Under Secretary of Foreign Affairs,

Captain Eden came in the role a trade disciple as well as that of disarmament mediator. His visit was regarded as perfectly timed in view of the present wave of sentiment ag-airst Chancellor Hitler and Germany which prevails in Scandinavia as result mainly of the German church The Swedish press warmly welcom

ed Captain Eden, denying there was any political significance in his trip from Copenhagen, Denmark through

In the same breath the press lam ented reports coming mostly from London, that Swedish negotiations with the United States were threat-ened with delay and possibly failure

Putting Bees Away For Winter

Bees that are to be wintered in cellar or dug-out should be carried immediately after the last good cleansing flight they are likely to get. At the Central Experimental Farm this is usally during the first week in November.

Why at 40 You Think You're "GROWING OLD"

It's Frequently Just an "Idea." Not "Old Age." And According to Scientists, May be Something No More Alarming Than A More Alarming Than A Touch Of Acid Stomach

At about 40, many people think they're "growing old." They're tired a lot. Have headaches. Stomach upsets. Dizziness. Nausea.

Well, scientists say the cause, in a great many cases, is merely an acid condition of the stomach. The thing to do is simply to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, all you do is take Phillips' Milk of Magnesia after meals and before going to bed.

Try this. You'll feel like another person! Take either the familiar liquid "PHILLIPS", or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada. Also in Tablet Form:

World Business Conditions

The current monthly letter issued by the Royal Bank of Canada deals extensively with business conditions throughout the world and reads in

The current monthly letter issued by the Royal Bank of Canada deals extensively with business conditions throughout the world and reads in part:

In Great Britain and in the countries of the Scandinavian peninsula the total volume of production in 1934 exceeded that in 1928. In Europe, with the exception of these countries which have maintained the gold standard or a semblance of that standard, conditions have continued to improve and throughout the world the countries which are loosely classified as being members of the sterling bloc have lead the way in slow but consistent recovery. In Japan, production is said to be 40 per cent. in excess of that in 1928, and throughout Latin America trade has improved materially as compared with last year. In Canada, improved prices for wheat and other agricultural products, the increasing production of the mining industry, and the exceptional expansion in forestry are indicative of the improvement which has become quite general throughout the country.

In Canada, and in many other countries, discussion of immediate internal business conditions is followed by speculation concerning prospects in the United States of America. Frequently, the summary is stated in the following form. "While business is not improving as rapidly as we might wish, yet prospects seem distinctly favourable provided there is no major reversal in the United States. The U. S. controls a sufficient proportion of the world's wealth and its total volume of consumption is so large a proportion of world consumption that no competent forecast of internal conditions can disregard the developments which may occur in that country." In contrast with this summary of business which is a fair statement of the world's wealth and despite the lack of activity in construction and durable goods, the total volume of business has shown substantial improvement above the low level of 1932, and it is still possibe that a recovery in the last months of the year may bring the total volume of provement above the low level of 19

October Dividends Higher

Dividends distributed during Oct-ober by Canadian corporations listed on the Toronto Stock Exchange as shown in the current monthly Bulle-tin, record an increase of more than a million and a half dollars paid to shareholders as compared with the corresponding period of 1933.

October dividends were declared by companies totalling \$10,752,553, bringing paymen's for the year to date by listed companies to \$119,496,-157. This figure is also an increase over the \$94,241,509 shown in Oct-

ober last year.

Net increase of the month was primarily due to the added bonuses and increased dividends disbursed by some 15 companies, which more than offset the reduced paymen's of several of the utilities and financial institutions.

Classed according to groups, the following amounts were disbursed by companies listed on the Toronto

Utilities	\$3 711.939
Mines	2.814 271
Finance	1.041.784
Miscellaneous	1.029 279
Oils	735,674
Liquors	520.559
Foods	469,775
Steels	429,280
하다가 생각하다 보면 사이지 않는데 하는데 없는데 하는데 없어 없다.	

\$10,752,553

Teck Hughes Report
Net earnings of \$3,020,906 are
shown in interim statement of estimated earnings by Teck Hughes Gold Mines Ltd., for the year ended August 31st. This is equal to 62.03 cents per share which compares with cents per share in the previous year. For the twelve month period the report shows gross income of \$6, 248,359 which is approximately the same as last year. Total operating costs amounted to \$2,476,515 to which was added \$625,811 as estimate for taxes and \$255,005 for depreciation, leaving a net balance from operations of \$2,893,026 to which is added \$136. 880 as the credit re bullion tax off-

set against Dominion income-tax in 1934. A comparison of the current state-ment with that for the preceding year would appear to indicate that the new bullion tax, put in effect this year is largely responsible for the decline in per share earnings as with the ex-ception of this item, income and disirsements irly well balanced for the two years.

Noranda Mines, Ltd.

For the nine months ending Sept-ember 30th, Noranda Mines Ltd. reports net profit of \$4,088,929 which is equal to \$1.82 cents per share which compares with \$3,033,436 or \$1.35 per share for the same period in 1933. Reduction in recovery and increased costs reduced earnings for the third quarter to 40 cents per share as com-

Wheat Price Pegged Effective November first Winnipeg cents for the December future and o cents a bushel for the May future This action was taken at the reques of the federal government after John I McFarland, general manager of the central selling agency of the Canadian wheat pools had stated that there was a renewal of the outside selling which had been recently complained of Duration of the pegged price wa ot set. Last year from August 15th to September 14th a pegged price of

Buffalo Beardmore Drilling

This syndicate is diamond drilling n the seven veins which have been discovered on its properties in the Beardmore-Long lac area. Surface exploration has given encouraging re sults on both the company's holdings On the group at Jellicoe the first drill hole has reached a depth of some 450 plng knives. This little device, it is feet at time of writing and 35 feet of stated will cut labor costs 75 per well mineralized core is being sent cent. A new type of tractor that down for assay. It is planned to sink on this group when the present drilling campaign is completed Fourteen veins have been uncovered on the Beardmore group and a number of assays have given excellent va ues. Shaft sinking on this group is now well under way and an extensive underground development campaign is planned for the next few

Canadian Pacific Railway

In report recently issued Canadian Pacific Railway Co. shows net profits of \$13,670,107 for the first 9 months of 1934 as compared with \$9,971,451 for the same period in the preceding year. For September profit was \$3,-033,580 as against \$2,003,328 for the same month last year. For the nine month period, gross earnings were \$90,900,318 compared with \$31,982,-

Auto Revenue 201/2 Million

1933 In Ontario — Licence and Gas Tax Twice That Of Quebec

Ottawa,-Revenue derired by Canada's nine provinces from various im-posts on automobiles last year abow-ed Ontario collecting \$20,492.242 from registrations and gas tax, with Que-bee the next highest province, drawing \$19,6444,671, into the provincial treasury according to figures issued by the Dominion Bureau of Statistics. Ontario's revenue constituted 43 per cent of the total for the Dominion, which was \$47,004,157.

From 1928 until 1932, the last year for which statistics are presently avallable regis rations enriched prov-incial treasuries by \$123,069,603, or an average for the six years of \$20,511,-600 per anum. In the same period the provinces collected \$130,041,465 in gasoline tax, or an annual average of

\$21,673,577.
In all of the provinces the revenue from registration in the past six years has remained fairly constant. With the exception of Saskatchewan nowever, which last year dropped bout \$10,000, gas revenues have scared, Ontario in 1933 collected \$12,852. 577, or 178 per cent more than in 1928. Quebecs gas revenue was \$4, 952,764 compared with \$2.774.401. six years ago. British Columbia's figure for 1933 was \$2,023.403 as against \$892 141 in 1928. Alberta increased by about 41 per cent to \$1,739,240; Manitoba by 95 per cent, to \$1,643,600.

New Brunswick registered the largest percentage increase, her gas revenues bringing in \$865.790 in 1933, or 266 per cent more than in 1928. Nova Scotia's collection was \$933,571 ag-ainst \$561,024; while Prince Ewdard Island took in \$166,831 compared with \$89,189 in 1928.

Down On the Farm

In 1882, we read, one man and two oxen created a record by ploughing one acre of land in six hours and 40 minutes. In 1934 one man and a two plough tractor could plough an acre in less than an hour.

Such advance foreshadows the bandry will be conducted with as lit tle manual labor as a modern steel rolling mill. Besides the newer aids to wards a mechanized farm are an-announced from time to time by manufacturers. They include the follow

A sugar beet topper that ploughs the beets out of the ground, grabs the entire root and carries it to the chopstated will cut labor costs 75 per cent. A new type of tractor that weighs little more than a draught horse, but has the pulling power of four. It costs no more than a small automobile does belt work and sup plies power for binders and other ma chines hitched to it.

A machine which brushes grades, and polishes 1000 bushels of potatoes a day. A "combine milker" with which the milk is never exposed to air in its transit from cow to retail All-steel barns which are shipped in paris from the factory and erected on arms in units, designed to accomo date any desired number of cows o sheep.-Winnipeg Tribune.

Guessing the Cheese

London-Monday was a great day at Simpson's in Cheapside, where "City" men congregate for lunch and the daily ceremony of "guessing the cheese."

For the first time in two years and six months, the cheese was correctly guessed-weight, height and girth. The correct guesser was E. W. Johnson. The figures were, Height, 12½ inches; girth 31½ inches, weight 30 pounds.

"The mechanineal rules of etiquette are the obvious findings of practical experience."—Emily Post.
