Pleased With Canada

The magnificent scenery of Canada so enthralled Lord Macmillan chairman of the Royal Commission on banking, that Scotsman though he be, he confessed, just prior to sailing for England on the Empress of Britain, that it dwarfed the scenery of Scotland, and that the only thing needed was for some author to blend it with the romantic history of Canada as Sir Walter Scott had blended the scenery of Scotland with the romantic history of the land of Bonnie Prince

Charlie. A lake he visited in the Gatineau Valley he admitted was more magnificent than Loch Lomond, while his description of Lake Louise was that it seemed to him almost a celestial vision. The Butchart Gardens in Victoria he asserted to be the most beautiful sight that the eye could rest on — in fact throughout the whole of the Dominion the eminent Privy Councillor found beauty everywhere he went, and declared that he would carry back with him memories that he would cherish.
