When the Easiest Way is the Best

THERE ARE NO TWO WAYS ABOUT IT! Certainly the easiest way to get the most for every dollar you spend is to buy products that you know about through the advertisements in your local paper—The Markdale Standard. You don't have to go out and look for buying opportunities. The advertisements bring them to you. And all you need do is consider the facts, compare values and decide on the soap or the sedan that best fits your judgment and your pocketbook.

Certainly the best way of making your money go farthest is to buy merchandise of proved value. Advertised merchandise. Merchandise that is bought and used by many people. Merchandise that must be superlatively good enough for its maker and your local retailer to keep calling it to the attention of people week after week and year after year.

This is the service—of convenience and profit—that the advertisements offer you. It will pay you to read them regularly and take advantage of everything they can do for you.
