Aberdeens District Champions
Markdale citizens and especially the lacrosse contingent are feeling rather elated this week. The Aberdeens have at least won the district championship by defeating Dundalk in a hard fought game at Orangeville on Friday.

As to the game little need here be said other than that Orangeville spectators declared the game to be an excellent exhibition, and they know what lacrosse is.

As to the players: For the losers Cummings at point played a great game, rough at times, but a good one. McArthur in goal is a wonder and can give points to any of the net watchers in this northern land. Carson on the home field did excellent fielding. Hodder McWilliams is a speedy player but seems unable to play decent lacrosse. He was a spectator for 20 minutes. Leach at cover was a hard man to pass. For the victors: McCartee, Skelton and Calbeck played like "warriors tried and true". Bud Cummings was one of the home players who were in condition. He played from beginning to end, fielding superbly. Bansley played a strong game. Penelton and Armstrong played their usual steady game. Alton showed what he could do when on grounds in which one has not to climb the fence to turn around. His check, Aikens, was never in it. Captain Dundas kept his men well together and played a great game. George was the fastest man on the job and scored twice. We may say right here that "Dunnie" has gone through the season without being penalized once. Joe Kelly and Burnside played cool and consistent lacrosse. Joe tallied two and though Wilfred did not find the nets it was a treat to see him toying with the great Mickey Cummings. Pat Kelly in goal stopped many hot shots but let the easy ones go by. However he was generally master of the situation, clearing at many critical times.

Much of the success of the win is due to Dr. Campbell by the superb manner in which he acted as field captain. He is a great general and though not so fast as of yore he knows the game from a to z.

The names of players and officials were:

The Indispensable Newspaper

In no country in the world has newspaper development reached such a stage as it has in this country. People are hardly equipped to live in a modern community until they read thoroughly every issue of a good local newspaper. In fact that is the way they conserve their incomes, by learning of good opportunities to buy merchandise. They become familiar with public movements and entertainments, and are able to enjoy many things that they would not hear about until they had happened, if they were not informed by the newspapers. They are thereby able to partake to the full of their community life, where without such a newspaper thoroughly covering their field, they are on one side of the current of its life.
