CREAM

Figures Speak for Themselves

The figures below will indicate our steady increase in business during the eleven years we have been operating the Markdale Creamery. In the year 1926 we manufactured 275,000 pounds of butter, with increased annual production up to the present time.

In 1934, 524,489 lbs.
 In 1935, 578,542 lbs.
 In 1936, 621,619 lbs.

WERE MANUFACTURED

The demand for our butter has grown even greater than the increased production. With the cream producing season near at hand we are again asking you for your full patronage and in return we will give you the HIGHEST possible market prices for your cream and eggs, plus best possible service.

When you are coming to town bring your can of cream with you and receive the additional cent per pound butterfat over truck prices; or have our truck call to pick up your cream.
