Worked the Same Old Gag

This past week a gent hit town and proceeded to hawk his wares from house to house—this time it was "imported rugs" that the smoothie had to offer. His story varied, but upon one point he was most insistent—the rugs were positively the best imported quality, and would be dirt cheap at twice the price he was asking—in fact, he hinted that the rugs might have been smuggled into this country past an unsuspecting force of Canadian customs officials. Well, believe it or not, but this glib-tongued sales artist proceeded to unload quite a number of these "fine, imported rugs" to trusting local house wives, and at a price far in excess of the rugs' actual value. For the truth of the matter is simply that the rugs came out of factories in either Montreal or somewhere down in New Jersey—the cheapest sort of company for just this one purpose of gyping the too gullible. It's just the old skin-game in the same old dress—but it still is good enough to catch a few suckers. Those who bought rugs from this gent might be interested to know that local stores could have supplied a far better quality rug at an even lower price than was paid out for the shoddies. Moral: Buy at home; you can trust your local merchants.— Paisley Advocate.

In the Spring a young man's fancy lightly turns to—what a girl has been thinking about all winter. It is easier to get people to take your advice than it is to get them to use it.

The W. I. held their social evening in the C. M. Hall on Friday night. The lucky winner of the quilt was Miss Dorothy Baker.
