# WARNING TO MOTORISTS

At the last session of the Legislature the law respecting the speed of motor vehicles was amended. The effect of this amendment is to increase the maximum permissible speed at which motor vehicles may be operated. The amendment in question becomes effective on the 24th of May.

Motorists are warned that the new speed limits are the positive maximum speeds at which motor vehicles may be operated under the most ideal conditions. While the maximum speeds are to be 30 miles per hour in cities, towns and villages and 50 miles per hour outside, speeds much below these are necessary under many conditions. It is still an offence and considered reckless driving, for which severe penalties are provided, to operate at any speed without due regard for traffic, highway or light conditions.

Motorists are urged to exercise the greatest of care and courtesy and are warned that a wilful disregard for the safety of themselves or other users of the streets and highways will result in prosecution and withdrawal of the privilege of driving.
