Otherwise it is standard 4 foot highway snow fence, painted red, with 13 gauge heavily galvanized wire.

"Steps-Up" Performance... Yet Saves You Money

The Complete Car—Completely New

**YOU** hear Chevrolet owners mentioning gasoline economy in terms of 25 and more miles per gallon. You hear others enthusing over Chevrolet performance.

These people are not boasting, they're just telling the facts. And here's why: Chevrolet is the only lowest-priced car with a Valve-in-Head Engine.

The great advantage is, a Valve-in-Head Engine gets as much as 10% more power out of every gallon of fuel than any other type. With the result that gasoline costs you less per mile.

And because the Valve-in-Head Engine gives premium performance, you find this type in all airplanes, racing cars and speedboats that hold outstanding records.

Drive a Chevrolet for performance with economy... and the matchless all around satisfaction of Hydraulic Brakes—Unisteel Turret Top Body by Fisher—Knee-Action gliding ride (on Master De Luxe models) and Fisher No-Draft Ventilation. No other car priced so low has them all! Low Monthly Payments on the General Motors Instalment Plan.
