Men's and Boys' Outfitter, Markdale

Entering a Store
you are Courteous—

Try Courtesy

When You Enter Traffic

WHEN we enter or leave a store we are all most courteous. We stand back for one another, hold open the doors, make way for the children and otherwise act in a courteous manner towards our fellow-shoppers. But do we continue this same friendly mental attitude towards each other when we get back into our cars and enter traffic again? To our fellow-shopper, for whom we held the door open, do we show courtesy when he becomes our fellow-motorist?

Do we warn him of our intention to pass by sounding our horn? Having passed him, do we get well ahead of him before swinging back again into our traffic lane? Do we dip or dim our lights when we meet him at night? Do we keep well to the right side of the road when meeting him? Do we give him the benefit of the doubt in a "tight corner" so we can both get out of it unhurt? And do we, in the many other ways that come to our mind, act and think towards our fellow-motorist in the same kindly and considerate manner as we did when we held the door open for him as a fellow-shopper?

I earnestly request that, when you get behind the wheel of your car or truck, you continue to be the same courteous person that you are afoot and "Try Courtesy" every inch of the way.

By so doing you will help to make motoring a safe and enjoyable mode of travelling.
