WE WHO ARE ABOUT TO DIE—SALUTE YOU

That was the greeting the gladiators of old gave to the Roman emperor before they perished in the arena.

But we are not gladiators and we are not going into battle. We have no hate for anyone. We are not sick of life. We do not wish to die. But we will, by the hundreds.

We are people who are going to die in fatal motor accidents during the years 1937 and 1938.

Most of us have not even a premonition of the fate which awaits us. We do not realize that Death lurks around the corner. We have not seen his shadow nor heard his footsteps. But Death awaits.

Waits around the bend in the next car's faltering brakes, in the trail of some chance driver who loves to "jockey" in a line of traffic or swish past another car on a curve or hill. In the street, on the open highway, what matter where? Death waits and does not announce his coming.

We are marked down to die. The great god called Statistics has written down our names in his big book and by actuarial laws we are doomed.

We do not know it, but Death is coming.

Some of us are little children. Our deaths will be more horrible, more tragic, than others. But die we will. Parents, teachers and professional life-savers with all their earnest warnings will avail us not. We are marked down.

We are careless now. We do not take thought. Have you never been a child. Do you not know what it is to be a stranger to responsibility, to depend on others for care, for shelter, for protection?

Yes, protection. That is one of the things the child is taught to expect from his elders; something in a cruel and reckless age he does not receive.

Our deaths will be more tragic because more cruel than all the others. You can see the headlines: "Five Children Killed in Safety Zone." "Tots Run Over on Way From School."

You will read these headlines many times over in the next year. But will you heed them? We who are about to die—Salute You!
