A flick of a switch, or the touch of a button summons your personal Genii. You should know him better. His name is Hydro.

It is he who, while you slept, kept the motor humming on the blower or oil heater, so that you awoke to a warm comfortable house. It is he who makes the toast—cooks the meals—bakes the cakes—runs the vacuum cleaner, the washer and the ironer.

And what a friend when you settle down in your favorite chair at night to read or sew under proper light, with your radio to bring the best in entertainment! You retire in security, knowing that should emergency strike, he can be summoned instantly—Lights! Telephone!

What other service can you buy at such low cost, that does so much? And while the price of practically everything we buy has steadily advanced during the past two years, the Hydro has, and is, steadily lowering the cost of electricity to you. In addition, every effort is being made to extend the benefits of Hydro, everywhere in the Province of Ontario.

As a partner in this great enterprise, you should take a keen interest in everything that pertains to Hydro, and its efforts to lower power costs still further.

**DID YOU CAUSE THIS?**

As a motorist and a citizen of Ontario, answer this question: How would you like to face the rest of your life knowing that you were responsible—through carelessness—for an accident like this? Would you ever want to drive a car again?

If you *do* drive, get this *clearly in your mind!* Should you break an Ontario traffic law and cause death or injury, you may not be *allowed* to drive a car again! We are determined to end the needless slaughter of our people. Cutting in, passing on hills and curves, crowding, racing and other breaches of the traffic laws, will get you into trouble—make no mistake about that!

Reckless driving *must stop*—now!

**WE WANT YOUR HELP!**

When you see a motorist driving in a manner dangerous to the public, take his number, make a careful note of the actual time and place, and when you reach your destination write to the Motor Vehicles Branch, Department of Highways, Toronto, giving full details. We do not invite reports of minor infringements of the traffic laws; you are requested to use sound judgment. *We will deal adequately with offenders!*
