“Not tomorrow or the next day . . . but RIGHT NOW!”

Tom Watson emphasizes the fact that he doesn't want delay, but intends to get the answer right away, by Long Distance. So a call is put through and a deal, which might have hung fire for days, is closed promptly. As Tom Watson puts it: "With Long Distance there's no room for misunderstanding. It gets results. And the cost? An insignificant part of our operating budget, although we do use it so frequently!"

Reductions in telephone rates—local and long distance—in 1935, '36 and '37 have effected savings to telephone users in Ontario and Quebec of nearly one million dollars yearly.
