Merry were the hours spent and a bounteous meal added to its enjoyment. Mr. and Mrs. Ellison were most generous and thoughtful in throwing open their home for this happy event.

Heel flies, warble buzzers and all the other pestilent vermin are tormenting the lives of all stock these glorious June days. Cattle go fairly wild, jump fences, plunge headlong into dense thickets to escape from the accursed pests.

### War on Weeds

A determined drive to wipe out weeds in both country and city is being inaugurated by the Crops, Seeds and Weeds Branch of the Ontario Department of Agriculture. Educational meetings which have been attended by officials, weed inspectors and interested citizens have been held in every district of Ontario. Weed inspectors have been told to be firm in enforcing the Weed Control Act and to use good judgment in all their dealings with the public.

However, to be successful, the campaign must have the enthusiastic backing of every household and farmer, officials pointed out. Judging by the interest displayed and letters received by the Department of Agriculture, weeds will be fighting a losing battle this year, with complete eradication the goal of the Department. One neglected patch or plant this year may lead to serious infestation next year. Careless and indifferent citizens can do much to undo all the good work of their neighbors in fighting the weed menace.

A weed inspector needs the assist-

ance of every individual. Give him your support. Make your community free of weeds. They are enemies to agriculture, public health and to the lucrative tourist business of Ontario. Weeds have no place in a progressive community.

Prevent them from going to seed. Every weed destroyed means the death of thousands of weed seeds. Will you, Mr. Citizen, please do your share in this worthwhile campaign?
