Will Spend More -- To Train Youth

Ottawa To Increase Vote For 1939 — 50,000 Canadians Benefitted Last Year

With particular emphasis placement features, the Dominion-Provincial youth training program for the present fiscal year is mak-ing excellent progress, the Fed-eral Labor Department said this

"While it is naturally too early to determine with accuracy the number of young Canadians who will benefit by the plan this year, it is probable that last year's fig-ures will be equalled if not exceeded," the department's state ment said.

Provinces Contribute "Approximately 50,000 Cana dians between the ages laid down in agreements with the province have profited by the program. Th exact figures are: Men. 32,301 457. Last year the amount voted by Parliament was \$1,000,000. This year the Dominion contributed in the neighborhood of \$1,500,-Provinces contribute on 50-50 basis.

Blackleg Kills Lambton Cattle

Many Are Dying Off As Result Lambion County cattle are threatened by a spread of "blackleg", a virulent disease not unnon at this time of the year Windsor Daily Star. It is estimated that twenty-five cattle have died in the county is WHAT IT TAKES recent weeks as a result of A good editor is one who has disease, but veterinarians and

others do not believe the situ tion is yet one for alarm. Caused By Bacillus Pravalent among cattle in that eres for the rest forty years, the disease has chiefly affected herds along the sixth and eighth conessions of Enniskillen township Cattle between the ages of six months and two years are most occeptionally attacks sheep and

any particular climate, soil or altitude. It is caused by a bacillus which forms a sore within itself usually the means by which an animal contracts the disease.

News Parade By Elizabeth Eedy

WOMEN AND CHILDREN FIRST: In the Great War of 1914-18, it was the uniformed men in the front line trenches who bore the brunt of enemy punish-ment. Today, things are different, as we know from watching dress rehearsals (for another war) in Abyssinia, in Spain and China. It is the civilian population, the women and children, who are the first victims of war, meeting swift death from the air, or a horrible mangling, or slow starvation.

WHAT PRICE DISTRACTION? appears on the world's horizon, women's fashions automatically become more elaborate, more ornery than ever-as a distraction, don't you know, from the grimness of reality.

Rheumatic Pains Relieved by Kruschen

Here is a noteworthy instance of the manner in which damp weather can affect the joints of one who is subject to rheumatic pains.

"I had been suffering from rheumatism very badly," a man writes, "and had such pains in my joints that I could hardly bear it, on a wet day especially. It pained me terribly to use my arms, and I was hardly able to work. I tried two different remedies, but I was still as bad after the treatment.

"Then I was told to try Kruschen Salts, which quickly brought relief. So of course I have kept on with it; and I am now much better and have never felt so fit for years. I used to feel so miserable and sluggish, but now it is a pleasure to be able to work."—S.B.

The pains and stiffness of rheumatism are often caused by uric acid crystals in the muscles and joints. The numerous salts in Kruschen assist in stimulating the internal organs to healthy, regular activity, and help them to eliminate excess uric acid.

points to death, not as an agony, but as a painless passing from eness to the last equivalent of sleep. Did you ever read Dr. Alexis Carrel's "Man, the Unknown?" Dr. Carrel explains that death is not instantaneous. It consists of two stages: general death, or the death of the individual, and local death, or the death of the organs. General death takes place with the last beat of the heart. At this point, personality ceases and the man is biologically dead. But each organ dies at its own rate. The kidneys, for instance, can live on

for more than an hour.

THE WONDERLAND OF OZ

"We want your help in this conquest," said Guph, "for we need the aid of the Growleywogs in order to make sure that we shall not be defrated. You hate good creatures as much as we gnome do. I asm ure it will be a real pleasure to you to tear down the Emerald City, and in return for your assistance we will allow you to bring back to your country ten thousand people of Oz to be yur slaves."

THE name "weakfish" comes from no lack of gameness of
