Cream and Poultry

Now that the flush of the cream season is over and the quantity of cream is getting smaller, with a possibility of more favourable weather for holding cream, we urge producers to deliver their cream and so take advantage of the delivered price. If it is not convenient to bring your cream in, send it in by our truck. It is more profitable to send to your nearest Creamery, rather than splitting, which is less profitable at any time.

POULTRY—The season in which we will kill all our poultry is approaching, and that will enable us to pay you practically Toronto prices here. If you have poultry ready for market, phone us for prices.

TELEPHONE TALKS IN THE WATSON FAMILY

"We're so glad you're feeling better, Mother!"

That LONG DISTANCE Habit is Catching!

The Watson youngsters are not merely playing telephone—they are playing Long Distance; for Long Distance is a habit with the Watson family—an inexpensive habit that saves anxiety and helps keep the family together. Let the telephone extend your horizons beyond your immediate neighborhood. Let it keep you in touch with your relatives and friends—their needs are so readily small.

Reductions in telephone rates—Long Distance—in 1935, '36 and '37 have effected savings to telephone users in Ontario and Quebec of nearly one million dollars yearly.
