examinations in English (Composition and Literature) and two in French and Latin (Composition and Authors).

Now, one examination is to be set in English and the languages in place of the former two. This examination will be taken at the end of the second year of the Middle School. At the end of the first year, students will be passed into the second year of the Middle School on the teacher's recommendation. In Science, Physics and Chemistry are intended to be taught at the same time for a two-year period, with the examination at the end of the second year. Perhaps in smaller schools these subjects will be taught in the first year of the Middle School Departmentals for the subject will be taught in the first year of the Middle School Departmentals for the subject will be taught in the first year of the Middle School Departmentals for the subject.
