WE appeal to you
Somewhere in Ontario, before this hour has ticked away, a little child will be stricken or injured—Pneumonia, Polio, meningitis, an automobile accident, or one of a hundred or more diseases or accidents will have found a victim.
The life of this little child may depend on the PROMPT ACTION of The Hospital for Sick Children in Toronto.
Centralized here under one roof is every facility known to medical science for the effective prevention and cure of childhood disease and deformity.
More than 9,000 little children were treated here last year. ONE-THIRD of these children came from Ontario Municipalities outside the City of Toronto.
Most of them were children of parents unable to pay the low Public Ward rates. But they were not denied any treatment or care that would assist in their recovery.
This humane policy resulted in a deficit of \$90,000 for donations to help meet this deficit and for practical encouragement to continue and expand this work next year.
Please... the life of a little child may be saved because you were kind and benevolent today. Send your donation, large or small... NOW.

FACTS AND FIGURES
Patients treated in the "In-Patient" Department during 1938 exceeded 9,000
Total patient days 140,000
Total attendance at "Out-Patient" Department during the past year exceeded 79,777
Total expenses exceeded \$540,000
Total income from normal sources will be less than \$450,000
Net deficit for year \$90,000
