WHENCE THE BLOW Whether the blow would come in the form of crushing military action (in the West, in Scandinavia or the Near East); of bombing raids on civilian centres; or an unrestricted air and submarine cam paign against Allied shipping, we were still in ignorance at week's

ideas of military penetration and

The fate of Finland continued to be in doubt . . . it was reliably re-ported that Russia had submitted definite terms for ending the undeclared war . . . Chicago News correspondent, E. Mowrer, cabled that heavy German pressure on Fin-land had blocked Allied plans to send an expedition via Norway . Germany, he reported, threaten to assist Russia in conquering Finland, should the Finns make formal application to Britain and France for the dispatch of troops. WHITHER ITALY? A showdown on German coal ex

ports to italy came during the week with what future results, it remained a matter for conjecture . . . the most serious, of course, would be the antagonizing of Musselini to the extent that he might enter the war on the side of Germany Virginio Gayda, frequently the Duce's mouthpiece, said in an interview that Italy would enter the war if it spread to the Balkans. During the same week. France began rationing oil, alcohol, and certain foodstuffs . . . Japanese diplomacy made gestures showing wil-linguess to come to an understanding with Britain and France . . ors of an early shake-up in the British Cabinet gained credence . . . Norway protested to Germany the sinking of 50 merchant vessels since the war began . . . Pope Pius made a new plea for peace . . . the British steamer Domala was bombed by a German Heinkel flying over the Channel . . . a shipment of oil from Russia to Germany passed through Bulgaria . . . the Finns withdrew to new defensive positions . . . Russia prepared to sign a non-aggression pact with Rumania . . . the "Queen Elizabeth made a suprise crossing of the Atlantic

In Ontario, movie-going resident woke up to the fact that they would have to travel down to Quebec province, or out to Manitoba to see th "March of Time" film on Canada's war effort.

Drury Asks Right To 'Shoo' Hunters

A private property owner should be given complete jurisdiction over his property so far as wild life and fish are concerned. So E. C. Drury, former Ontario premier, told the Ontario Anglers' recently. Under the present system, he

said, a property owner could "shoo any ordinary person off or sue him for trespassing. But," he added, "if the 'trespasser' carried a gun or fishing rcd he could say 'go chase yourself' if told there were no placards up-and you couldn't do a thing about it."

Seaway Scheme To Cost Canada \$45.000.000

Hogg, Chairman of Ontario Hydro, Figures Expenses On St. Lawrence Waterway

Canada and the United States are in substantial agreement on the development of the St. Lawence waterway and the way to signing of a new treaty is open, declared T. H. Hogg, chairman of the Ontario Hydro Electric Power Commission, when he addressed delegates at the annual convention of the Ontario Municipal Electric Association and the Association of Municipal Electrical Utilities. Electrical engineers from every part of the province were present and heard Mr. Hogg's review of the prospects before the electrical industry for the coming year U. S. TO SHARE COSTS

He said that assuming that th division of costs under the new agreement would not be materially different from that in the old treaty which failed to receive ratification in the United States Senate, a total cost of \$45,000,000 may be taken to represent Cau-ada's out-of-pocket expenses under the new agreement. He said that in event of a new agreement nov the work in Quebec need not be undertaken until after the end o

WHAT PEOPLE WANT Possibly some day our politician will discover that what the people are longing for in public men who will keep closely in touch with pul lic feeling and public interests -not merely public as centres about party questions, but public feeling towards matters that have no reference to party politics whatever - Guelph Mercury.

There are several obvious reasons why sheep-raising has not so great an appeal for the Canadian farmer as the raising of swine. One reason was stressed recently by the department of agriculture. It is the menace of the prowling dog.

Mary sheep breeders in Canada are of the opinion that it is practically impossible to raise sheep prof-

run at large.
As a result of the menace from while it is taking milk, a baby will digest it more easily, it was dogs there has been a reduction of 75 per cent. in the number of sheep reported at the American Dairy Science Association. Dr. Chambers, the discoverer, aised in one district in which the sheep are regarded as the best pay-ing class of livestock.

Tractor Trains. Planes Serve Gold Fields

New Gold-Mining Area North of Transcontinental Railway Gets Freight by Modern Methods

This winter is proving to be

bumper season for the freighting business in Canada's new gold-mining area north of the trans-continntal railway line, says the Christian Science Monitor. Aerial transport operators report one of their best years, and now tractor trains are running across e frozen lakes, freighting thous ands of tons of mining machinery o properties which have proven to

be worthy of development.

Hudson, Sioux Lookout, and Kenora on the railway line in northern Ontario are the starting points of the air and tractor freight trains. MACHINERY FLOWN IN Here the heavy machinery and hundreds of tons of other supplies needed at mining camps are unloaded from the freight cars onto heavy ileds, and powerful tractors hitch

UNITY

The REALITY of Canada's unity in this day of great national effort is a source of dis-

may to our enemy — and a factor of strength to ourselves and to our Allies... What Canadians should realize most fully is that their national unity does not exist through

accident . . . It is the direct consequence of resourceful, determined and painstaking

administration during recent years by an experienced and nationally-minded federal

government . . . During the past five years the peacetime policies of the Mackenzie King Government — with respect to both domestic and external affairs — have been

designed and executed with one main purpose in view - the strengthening of Can-

ada's bonds of nationhood . . . Because those policies were sound; because they in-

creased the measure of contentment throughout Canada; because they avoided

clashes between provinces and races and creeds; because they were equally considerate of agriculture, industry and labour . . . because those policies have been truly

national in scope, Canada is today putting forth a great, united, national war effort.

but an Achievement

Not an Accident

Montréal audience in a recent ad-Among the factors contributing to increasing safety in air travel were, he pointed out, Government control and regulation, the development of gyroscopic flight instru-ments which had changed flight technique, the rigorous training gi-ven pilots and their sense of restio as an' aid to navigation and the

logical service. 9.236 MILES DAILY In Canada, approximately 6,000 miles of scheduled air services were operated, Mr. Wakeman said, with the T. C. A. system mileage of 3,727 niles. The services were maintain ed by 21 companies. Trans-Canada at present fly 9,236 miles daily. The otal mileage flown by T. C. . in 1939 was 3,125,393, with an aver erformance efficient of 9S per cen here were 21.569 passengers carried for a total of 12,068,611 passe ger miles: half a million pounds of

Finds Clues To **Ancient People** In Garbage Dump

University of Toronto Expe Has Recovered Thousands o Pottery Fragments, Bones From Prehistoric, Indian Village in Elgin County

Dr. Philleo Nash, lecturer in thropology at the University of To , and his assistants have co cted more than 3,000 pieces of charcoal from a prehistoric India In addition more than 12,000 frag

000 animal bones, as well as num erous tools and ornaments, have been recovered from a small sec tion of the Indian village. THEY CULTIVATED MAIZE Remains of kernels of corn and corn-cobs preserved in the ashes

cultivated maize long before the ar rival of Europeans.
Study of the annual tree growthrings in charcoal against a master chart of annual tree growth-rings will enable Canadian archaeologis o determine the exact dates of the village's existence. Such master charts in the United States have dates for Hopi and other Indian civilizations. Canadian scientists are attempting to construct such charts

in Ontario, but are hampered by lack of money. Dr. Nash indicate that a small sum, "even \$500,

would be of material assistance. Owing to lack of refrigerate space, the government has forbid-den Australians to include butter in hampers shipped to Great Britin. No restriction were placed on other rationed goods (hams, baco

40,000,000 Fish Fry For Lake Huron

Baby Whitefish and Lake Trout Are Being Prepared at Point Edward, Ont., Hatchery

One of the heaviest operations in the history of the provincial fish hatchery at Point Edward is taking place at present as the result of which an output of 40,000,000 whitefish and lake trout is looked for. hatchery stated. The young fish are to be decosited in Lake Huron, in the spring to replenish the supply

The hatchery started operating at full capacity some time ago, re producing fish from eggs secured last fall from fish caught in the nets along the shore of Lake Huron. The catch in certain spawning Mr. Oakes stated.

The eggs were placed in the hat-chery and when the warm spring rains raise the temperature the egg shells will be dissolved and the fish will swim free.

Feeble-Minded Are Increasing

Montreal Geneticist Says Lowe Intelligence Groups Are Producing More Children Than Higher . Types Are

By all the best calculations there has been an increase during the present generation of 20 per cent. n the types of people whose intel-igence quotient places them among the dependent classes, Prof. C. Leonard Huskins, head of the department of genetics at McGill Un rersity said in an address at Mont or this, he said, was that the peo

ple in the lower intelligence groups produced more children than those in the higher.

This did not mean that persons in the lower groups could not pro-duce the highest'types, he added, but that they did not produce them in the same proportion. Most of the seeble-minded came from parents of low intelligence quotient.

Modern Etiquette BY ROBERTA LEE

Q. If a girl who is to be married s no father, but would like to have her mother take some part in the ceremony, couldn't she have her for maid of honor or a brides-

ther "give her away". Q. Isn't it rude to unwrap a be of candy, while at the theatre and the show is in progress? A. Yes, it is not only rude, but in

considerate, as the rustling of the paper cannot fail to annoy others.

Q. At a buffet meal should the

women serve themselves or wait for their escorts to bring them their plates? A. The women should serve them

Q. When planning to make informal call on a friend, is it per missable to telephone first, to b sure that she is at home? A. Yes, this is all right, and is wise thing to do if the friend live quite a distance away. Q. Should the silver be placed with the ends about three or four inches from the edge of the table? A. No. The ends of the silver

FRED NEHER . 9-15/ (Cognight, 1996, by Fred Niber) "Of course my mother's home d'ya think l'd Le doin' this porch if she wasn't."

Municipal assessment systems will be studied this year by the Municipal Affairs Dapartment, Hon Eric Cros, Minister, said in the Legislature in tabling the annual departmental report.

The report said that the legisla-7 N.H.L. crists like the 7 big-time hockey teams unathered the colors are fast! They look amart on a jacket or sweater. You can own as many as you like absolutely free. Here's all you dot—end one Bee Hire Syruplabel along with one Durham or Irory Starth label for each crest desired—specify crest or crusts wanted, your name and address, enclose necessary labels. ... mail to the address on the labels. tion just passed providing for appointment of county assessors will materially help the department to meet the situation. DEBENTURE INDEBTEDNESS DOWN
Refunding of debts has been achieved in 24 defaulting municipalities, the report said and added: 'It is held to be significant of the value of the department's work

that municipalities formerly in de-fault, have chosen to remain under a form of departmental supervision after refunding plans had been com-BEE HIVE SYRUP
