**Trials and Triumphs**

We read in the St. Catharines Standard that a hailstorm destroyed much of the peach crop in Queenston and St. David's sections. The peach crop is generally destroyed first in the winter by heavy frost, then again in the spring by some new sort of insect, and destroyed the third time in the late summer by bad weather. After which they proceed to harvest the crop and live on the proceeds until the next one comes.—Peterboro Examiner.

The president, Mrs. Ran Bradey, was in the chair and the secretary-treasurer, Mrs. Russ. Boyce, gave a report of the work being carried on here. The sewing committee, Mrs. Harvey and Mrs. Bowler, gave their report as did Mrs. Dickie, wool convener. The result of this all was our raising of \$178.34. Seven parties, held in the shed, netted \$78.37 and seven eucyre parties held earlier in the season, was \$42.00, making a grand total of the above mentioned. Our expenditures were \$116.90, leaving a balance of \$61.44 up to date. There has been donated 75 pairs of socks, 19 sweaters, 6 dozen handkerchiefs, 3 quilts, 26 ice bag covers, 18 pr. bed socks, 21 pillow cases, 12 surgical towels, 1 pair new wool blankets and 3 pair wristlets. The sewing committee are starting to get some things ready to give out to be made up. There is always yarn on hand, either at the home of the president or with Mrs. Dickie. Anyone who would be willing to help in any way we will be very grateful to. There is an urgent need for supplies, so let us, who have never known the want of material things, get together on this and help those who are trying to save us from Hitlerism. Surely, at the Red Cross program last Sunday evening and also when we hear the appeal the U.S.A. are sending out, we Britishers will do our bit. The meeting closed with singing, The National Anthem. A social chat was indulged in and all returned home feeling more patriotic, if possible. Next meeting will be the home of the president, Mrs. Ran Bradey, on Nov. 7th. Please make a note of this date and come out as it will be a public meeting and every lady is welcome.

**Newsprint Provides Vital War Credits**

You cannot fire a roll of newsprint paper or a ton of pulp at the enemy, but the dollar revenue from the sale of these products in the United States and elsewhere constitutes an outstanding source of American funds with which to purchase in the U. S. many essential goods needed in the Dominion's war effort.

Next to gold, newsprint provides the Dominion with more U. S. dollars than any other material produced within the country. It is even more important in this respect than wheat, lead, copper, nickel, automobiles or hundreds of other items with which the Canadian public is familiar.

Pulp, too, ranks high on the list as a source of U. S. exchange and between the two the Canadian pulp and paper industry this year will make available to the Dominion Government in excess of \$200 millions of American dollars for use in

*Not all BUSINESS IS BIG BUSINESS*

**A LITTLE steam lifts the lid of your tea-kettle. A lot of steam drives trains, machinery. Your bank deposit may be little, but it combines with millions of others to make a lot of "steam". It helps to run the nation's machinery of production, marketing, employment, business. It is important indeed to the country's war financing and war-time effort. The money is yours yet it helps provide the credit necessary to move the goods and services of the nation. Canada's chartered banks thus perform functions of great usefulness. They receive the deposits of millions of Canadians, and extend credit to individuals, governments, businessmen and marketing organizations. The small depositor is important to the banks. The "little fellow", popularly so-called, is welcomed by any bank, as a customer.**

In war, as in peace, Canada's Chartered Banks maintain, uninterrupted, their useful services—safeguarding depositors' funds; facilitating the nation's business—looking forward to peace with freedom as the only sure basis of enduring prosperity.
