CHEVROLET

GENERAL MOTORS' No. 1 CAR

Again Takes First Place In Motor Car Sales

IN EVERY PROVINCE OF THE DOMINION

YOU have awarded Chevrolet—General Motors' No. 1 Car—the coveted honor of being No. 1 car in popular demand in 1940.

For years you Canadian motorists have purchased more Chevrolets than any other make of automobile, regardless of type, size or price. You did it again in the year just closed—most emphatically, in every province in Canada.

We want to thank you for your mark of high favor and for your confidence. You place on us a definite responsibility to continue to give motor car leadership—and we accept that responsibility. Since you rate Chevrolet first in value, we are under the obligation to keep it first in value.

We consider that there is an entirely new call this year upon Chevrolet quality and dependability because Chevrolet is an essential part of Canada's war effort. To fill its place in the transportation program of a nation at work to win the war, Chevrolet must be built to an effective and enduring standard.

These are the reasons why we have redoubled our effort to widen and increase Chevrolet

new Chevrolet carefully, you will agree we have succeeded. You will find, for example, that Chevrolet alone among the low-priced cars includes as standard equipment certain quality features which a buyer would be wise, under present circumstances, to insist upon. You will find that Chevrolet with its thrilling new *bigness* is styled ahead for your protection.

It is worth money to you to know that Chevrolet is the only low-priced car providing, at no extra cost, original Vacuum-Power Shift which makes gear-shifting 80% automatic and requires only 20% driver effort; genuine Unitized Knee-Action which absorbs road shocks and prevents pitching and tossing; a body by Fisher of the same design and quality featured on higher-priced cars; and Concealed Safety Steps which prevent the accumulation of ice and snow and are the mark of truly advanced styling.

We invite you to take full advantage of the value you have helped, by your buying preference, to create.

Won't you please visit our showrooms and thoroughly inspect General Motors' No. 1 car—and Canada's No. 1 car—today!
