Instead of the maximum pegged butter price now existing we are looking forward to a very satisfactory minimum pegged price for the producer.

In the face of this fact will you be in a position to benefit to the fullest extent by the higher price for cream this summer? Will you be able to help the war effort by increasing your production?

Our advice is to have your dairy herd up to the mark and prepare for higher production.

For best results in marketing your product sell to the Markdale Creamery and Produce Co.
