Lend to Defend our way of life!

DOWN THROUGH THE AGES Britons fought and suffered and died in order that their children and their children's children might be free. Today the forces of darkness threaten to engulf us once more. Shall we give up those rights which our forefathers won?

Today our country must arm. No time can be lost. We must build the greatest war machine the world has ever known. We must accomplish in two years more than the enemy has accomplished in seven.

That is why Canada needs your savings—not as a gift, but only as a loan. Canada's army must be maintained and equipped with the most modern fighting machines. Scores of warships and merchant vessels must be built. Thousands of planes, thousands of pilots must be rushed to the scene of conflict.
