If you were to comply with the wishes of our government, and that we are obliged to do, especially during wartime, you would produce more cream, because dairy products are very essential to help feed the British.

You would sell your cream to your nearest creamery, thereby eliminating waste of fuel and labour, which are so important at the present time. Hence by eliminating waste, you would help maintain a higher price for your own product.

Deliver your own cream whenever possible and take advantage of the extra cent, or have our truck call and you will be satisfied with our efficient cream

Meat Storage Service

Many patrons have taken advantage of our meat storage service. All are satisfied. It means a great saving and convenience.

With the possibility of meat prices rising many patrons are now storing their meats, thus guarding themselves against higher prices. We urge you to take advantage while their is still available storing
