**Eggs**

**WANTED: Two more eggs per month from every Hen in 1942.**  
 Britain and Canada need more eggs than ever before and only efficient production will get them. A hopper of mash in every laying house is essential for maximum production. If a hen is worth keeping she is worth feeding; feed her well and she will pay you well. Keep your eggs clean and cool and market them often for best results.

**Cream**

With Canadians likely to consume a million more pounds of butter per month of 1941 than in 1940; and Britain needing more Dairy products than ever, it means that every Dairy Cow in Canada should be fed for maximum production, as the number of milk cows cannot be rapidly increased to meet the growing demand. Do your part and feed your cows well.  
 Every method is being made to save gasoline, so when you come to town bring your cream with you and decrease the number of trucks plying your lane.

**Meat Service**

You are invited to come and inspect our meat storage, and we feel sure that it will pay you to make use of it.

**TRIBUTE TO MARY**

Mary is the "voice with a smile". Mary is the efficient telephone operator. As an operator she knows much about telephone equipment—how it should be used and handled.  
 Big Mary is best known for her personality—for her coolness in emergencies—for the grand things she has done and again, ignoring her own danger, intent on one thing only—to keep the standard of telephone service high.  
 We pay respectful tribute to Mary and all the girls who work with her. Her devotion to her job sets a standard of public service. Tactful, patient and courteous, Mary is the medium through which this Company and its public are always in touch. She plays a vital part in Canada's war effort.
