Pay Subsidy On Freight Charges

Policy To Deal With Acut Shortage of Feed in Western Provinces

A Federal subsidy of one-thir the freight charges on feed grain shipped from West to East and appointment of a controller to see there is no boarding or other obstruction to the movement of train after it leaves the produces are main points of the 1941-42 feed grain toliev announced recently by Agriculture Minister Gardiner.
The policy is designed to deal

with a shortage of grain due to small crops this year and an in creased number of livestock needing feed due to the response of Canadian agriculture to the Got ernment's appeal to produce more cheese and pork for Great Britain, Mr. Gardiner said the Western provinces estimated they would have no surplus oats to send East, and about 25,500,000 bushels of barley to ship besides some rye and wheat. The Eastern provinces estimated

they would need 56,500,000 bushels of grain in addition to that now available if they are to produce the volume of pork and cheese required. Ontario needs 30,000,000 bushels, Quebec, 24,000,000, and the Maritime Provinces 2,500,000, said, is for all kinds of feed, and the need will be partly met by the curtailment on exports of feet grain and millfeeds now in effect. For Proper Distribution It would be necessary, however,

to make all the 26,500,000 bushel Western barley surplus plus all other normal time feeds, plus some vheat available to Eastern farm "It has therefore been decided to do three things to encourage the proper distribution of the nec-

"I. Permits are required before any feed can be shipped out of "2. A controller will be appoint Board to keep check on the move ment of the different feeds to in sure that there is no hoarding or other obstruction to its move

nent after it leaves the producer, nor any undue speculation. "3. The Federal Government will efund one-third of the freight costs on all feed moving East from that it was distributed for feeding ourposes in . operation with the

Auxiliary Air Force Needs Good Cooks

Cooks are going to be urgently needed in a short time, the Canadian Women's Auxiliary Air Force prophesied. The air force usually prefers to make its own rather than borrow them but its insistence on good ooks suggests agreement with the old saying, "The army marches on its stomach." Women enlisting in the C.W.A.-A.F. as cools will get just as many opportunities for promo-tions and commissions as any other trade. In fact, since the need is an urgent one these will probably be faster. Cooks will be required to take the regular training given C.W .-A.A.F. recraits and then will take a five-weeks course at the R.C .ace to the appetite behind them A.F. cooking school at Guelph probably starting the middle of whereas past acquirements o deeds of goodness are a perpetua

November. They will live in barracks there. An clementary knowledge of cooking is necessary though applicants need not be experts. lowever, the C.W.A.A.F. is trying to avoid those whose cooking ability is limited to boiling water. Women interested should apply to the nearest recruiting

reproach to any pepole.--Prov THE LESSON IN ITS SETTING was written somewhere between 1400 and 1500 B.C. The passage which appears in our lesson from Isaiah may have been compose about 725 B.C. The prophery of Hahakkuk was written, probably Place-The book of Deuternoo

was undoubtedly written in the Isaiah was, for the most part, writ ten in or near Jerusalem. We do not know where the book of Habakkuk was written, though it is a message to Israel, the Norther Three Blessings

therefore as Jehovah your God hath

commanded you: ye shall not turn aside to the right hand or to the left. 33. Ye shall walk in all the way which Jehovah your God hath commanded you, that ye may live, and that it may be well with you. and that ye may prolong your days in the land which ye shall possess" It would seem that turning to the left from the Word of God would be to do less than God's Word commands: wherea turning to the right from the Word of God would be to adopt a system of life more after the lattern of some humanly conceived idea holiness. All life is a walk. What we want to be careful of is that we are walking in the way that God has appointed. If God has appointed a way in which He wants us to walk, then there is an indication of God' love and interest in our lives. Three things are promised here: abundance of life, blessedness of heart, length of days. To disobey the laws of God

we have such a choice set before

us implies, first that we have

TOYS OUT OF DEBRIS

The toys in this picture have all been made by members of the London Fire Brigade. Since the bitzkreig on London came to a temporary stop members of the London Fire Brigade have found time lying heavy on their hands. To while away the hours of waiting, members of the Eastern District of the London Fire Service decided to make toys and dolls out of bomb debris to stock the nursery centres of the American Red Cross. Their completed work has just been placed on exhibition in a South London school

City of London Stores Up Water
