the track.

Questions
A Mexican maid handed it to Silcott while he was at supper. He asked permission of Mrs. Windom to read the message. He read: Mr. Stratton's office just as he was leaving. They brandished re-volvers and forced him to open the safe. When they did not find what they wanted they almost strangled him. He is now sick in bed. One of the men called the other Jud. "My husband has asked me to

warn you to look out for your-self. He thinks you had better get out of town at once." The signature on the note was "Jane Stratton."

"I hope it isn't bad news," Henrietta said.
"Mosely has made his second try for the letter," he replied "Two of his ruffians assaulted our lawyer Stratton. He is at home sick. The note is from his

"Is Mr. Stratton badly hurt?" the hostess asked.
"I don't think so." "Did they get the letter?" Anne

wanted to know.
"No. Stratton did not have it." questions. She knew the answer alone with him for a moment she put a more direct one to him. "What have you done with the Gandara letter? didn't know, so he couldn't tell

"They wouldn't dare touch me, if that's what you mean."
"Not unless they have gone clean daft, but you can't be sure what Mosely would do. Safer fo you not to know." More Questions
"Are you carrying it with you?"

"Why didn't you show us that note you got from Mrs. Strat-ton?" she asked, shifting the at-"I told you about it." Jim was a trifle disconcerted by her acu-

to tell us." she corrected sharply. "I'll have a look at it, if you please." Her small hand was outstretched for the paper.
"You're some bossy," Silcott commented. "That note was written to me, young lady." "I'm in this as much as you are. Hand it over. Unless you would rather I'd go to Mrs. Stratton and

"You sure do ride hard on an idea until you have it roped," he Anne moved closer to a lamp and read it. "So that's why you didn't read it aloud—because you didn't want us to know they would be after you right away. Do you think I'm dumb? I didn't need Mrs. Stratton to tell me that. What do you intend to do?"
"What would you do?"

She told him promptly. "I'd take a train, no matter where it was going, and drop off at the end of the line." Jim shook his head, smiling at her. "No, you wouldn't do that. You'd stick around, as I am going

She drew a deep breath of surrender. "There's no use talking o you. You'll gang your ain gait, ay. What will Russell Mosely's ISSUE 9—'42

THEY'RE IN THE ARMY NOW

Although more than 18,000 women in Canada are anxious to join the Canadian Women's Army Corps and the Canadian Women's Auxiliary Air Force, it is not yet known how many of them will meet the army and medical requirements. Already more than 1,000 women have been recruited in the C.W.A.C. and 900 in the C.W.A.A.F. Above two members of the C.W.A.Cs in their smart khaki uniforms and beach brown neckties, are shown filling a kit bag with the equipment supplied to each recruit.

month, enough to enable the R.A.F. nightly to drop almost 100

tons of destruction on Germany. Canada's main contribution in

the way of munitions in the first Great War lay in great quantities of shells, most of which were

shipped overseas to be filled in England and France. Today Can-

ada not only has produced many millions of shells, but also has created a new industry where

shells and projectiles are filled

with various explosives and are

shipped overseas as complete rounds of ammunition.

While Washing It

Done correctly, even the sim-

pleat beauty routine is beneficial to the skin in more ways than

one.

For example cleansing, the simplest form of all, does more than just clean the skin if the

cream is smoothed on with upward

and outward strokes and patted in

along the flabby jawline before

removal.

The same is true of a soap and

water cleansing. Move washcloth or complexion brush upward from

chin to ears, upward from nose

to temples, upward on forehead and gently around the eyes. No-

tice how much better your skin feels afterward than it does after

a skin-stretching, up and down and around and around scrubbing. Tonic, night cream, even foun-

dation lotion and powder should be applied accordingly. When you remove makeup, hold a piece

office. Swiftly he moved forward along a narrow street flanked by one-storey adobe houses.

To him there came the slap of the one-storey adobe houses.

To him there came the slap of running feet and the sound of voices. Figures emerged vaguely out of the darkness heading in his direction. Jim ducked into a deep doorway and crouched low. Three men passed, moving fast. Silcott came out from the door-way and followed. He had recog-"Go to the head of the class."

"And you won't tell me where nized Jud Prentiss. That these men had tried to rob the postoffice and been repulsed was a safe surmise. Jim meant to find out where they were going to hole up until the danger was past. They swung to the right. From back of the scudding clouds a moon came out. Silcott dropped farther back to avoid attention. The fugitives left the road and crossed the shadowy slope of a hill. The terrain was sown with pinons and it was very difficult to distinguish the small trees from human figures. Jim lost and

terly. "Then their friends couldn't see them strutting around inviting "I don't want to distress you,"
he said gently. "I take all precautions possible. My own opinion is that I am going to live to found his quarry, then missed his a ripe old age. Don't worry about men again as the moon went under a cloud. der a cloud.

He counseled with himself as to whether he had better go on and Her eyes fell away from his. "That's easy to say. How can I help it—since we're friends."

try to pick up the trail or go back and let Windom's men carry on the hunt. He knew he ought to relurn and report, but he wanted to have something definite to tell. It would be a great coup if he could find the hide-out of the out-

laws.
An arroyo opened out of the darkness on his left. Had they gone up the gulch or swung to the right? He chose the arroyo because of an obscure feeling that hunted men run to the hills. A stone's throw from the lower exit the canon widened to a little park, and in this was a house built close to a rock wall. Cautiously he drew near, making the most of such cover as there was. He wished that Rufe and Pesky were with him.
(Continued Next Week) them from the adjoining room.
"Come on everybody. We're
going to play charades."
They drifted back to the group.

Berries To Bombs In Twelve Months

Evidence of the speed with which some phases of Canada's Jim grinned. "You're ahead of war effort have been put into op-eration is found in the fact that schedule. I gave you five min-utes to work out that idea. It a tract of land which, in the Spring of 1940, was only a blue- strain than a full day's marching berry patch, had become, a year later, the site of a bomb plant 1917.

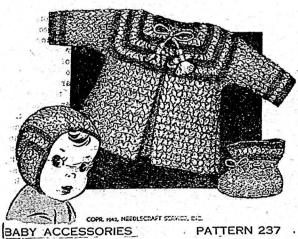

"Oh, you've already thought of "It did occur to me. Lieutenant Windom has stationed half a dozen soldiers in the building to

"Perhaps they will catch Rus-"No. Russ is to smart for that Silcott slipped out of the Windom house through a kitchen door leading to the garden. He climb ed a paling fence and dropped down a short slope to the bank of the Santa Fe river. Along this moved through the brush t he Corrillos Road and crosse he river by a rickety bridge. A dusty winding wagon path led to the south side of the plaza. The crackle of shots pulled him up in his tracks. He guessed that there was trouble at the post-

of cleansing tissue in each hand. Place hands on chin, then move the tissues upward from chin to ears, from nose to temples, upward on forehead then around and around eyes. You'll be giving your skin a good little facial as well as a cleansing.

GOOD EATING NEWS Is there anything better on top of a piping hot lamb stew than plump feather-light dumplings? Made with golden All-Bran in the batter, they're extra appealing. And they're better for you, since this crisp.crunchy breakfast cereal retains its laxative properties even

in cooking. The recipe goes like this: All-Bran Dumplings All-Bran Dumplings

1½ cups flour

1 teaspoon salt

1 tablespoon baking powder

Sift flour, salt and baking powder begether. Beat egg until light; add melted and cooled shortening, All-Bran and milk. Add liquid mixture to sifted dry ingredients and stir only until flour disappears. Drop batter by heaping teaspoonfuls on top of hot meat stew; cover tightly and let simmer for 20 minutes without removing cover. Serve hot.

Vield: 8 dumplings. TABLE TALKS

BREAKFAST Breakfast An All

Important Meal Upon observation, discuss and experience I have learner that breakfast with many is much neglected meal. much neglected meal.

Does your family go forth into
the world these winter morning,
fortified by a wholesome and
health giving breakfast, one which is so heart-warming that they really wish to take time to enjoy it, r is it one of those hasty, sketchy things of which energy tehy things, of which energy

and perception are gone long be-fore mid-morning?

The most sensible breakfast, which is the very essence of sim-plicity, should be: fruit or fruit juice; cereal with milk, sugar, syrup or honey; toast, muffins or rolls; jam or marmalade; ho beverage.
At breakfast one should us

'Catching Bobs' May Return With 'Dobbin' Into the limbo of forgotten joys

has gone the sport of catching bobsleds, says The Minneapolis Star-Journal. No longer do town youngsters catch the farmers' sleighs-to perch on the back runners or to hitch their own sleds behind the flying bobs. What do schoolboys do now on Saturdays and afternoons when school is out, to make up for those thrills? Never was a challenge more entrancing than when a spirited team, with bells jingling, dashed down the roads as though daring a lad to catch a ride. A few farmers were gruff, but mostpitable lot, wrapped to their cars buffalo coats, their feet hidden When the snow law doen on a

winter's day there was no question what a boy would do . . . he'd be out catching bobs.

How Marvellous Is British Soil

How marvellous is the soil of Britain, says The London Daily Express. Every Royal Commission or other government inquiry in between the two wars reported food at home if we tried. The pity is that it was never done. Yet here today is the Ministry saying simply that we have the best farming country in the world. The story is told of an upa pasture plowed and sown again with grass produced nine and one-half times its former feeding value, upping the yield of milk from 54 to 350 gallons per acre. The Meanest Thief

Domestic tragedy that only a war could cause caught up with Harold C. Hanson, a wheat broker, at the Chicago Board of Trade

LESSON IX. THE PARABLES BY THE SEA Matthew 13: Mark 4:1-34: Luke

PRINTED TEXT Mark 4:26-32: Matt. 13:44-50. GOLDEN TEXT.-Never man so spake. John 7:46. THE LESSON IN ITS SETTING Time.—Autumn, A.D. 28.
Place.—At the Sea of Galilee. Growth of Spirit
26. "And he said, So is the
kingdom of God, as if a man
should cast seed upon the earth;

hook makers are asking the gov-ernment of the United States for the U.S. market.

Before the war, most fish-hooks were made in Norway, England and Germany. Japan supplied the cheaper, imitative stuff. And have the fish-hook manufacturers 27. and should sleep and rise night and day, and the seed should fruit of herself: first the blade then the ear, then the full grain in the ear. 29. But when the have the fish-hook manufacturers an argument based on the war? They'll say they have! They rate fish-hooks as a military supply. Two firms have high priorities on material for making 60,000,000 fruit is ripe, straightway he put-teth forth the sickle, because the harvest is come." First the parable tells us that there is a mys tery to the growing of that which hooks on government orders. Some of these are for Iceland's fishermen for making "big catches to lease-lend to Britain." Furtheris sown. How true this is. With all of our vast knowledge of botany there is one thing that man does not know, and that i how a plant really grows. Second more, all U.S. planes flying over water and all life boats are being equipped with kits which include fishing hooks and preserved baits. Consider this: It is estimated ly, there is an emphasis placed on the gradual growth of the seed and this, also, is true in all nor-mal, spiritual life. Finally there is a harvest. There is an end of that some 500 tons of steel and eight tons of plating metal are required to meet U.S. demands. The manufacturers have a fund of growing; a maturity ordained of God. Life is of God. Growth When Izaak Walton wrote the We can co-operate with God, ar "Compleat Angler" in 1653, he started something, the end of which he could not foresee. And use all those means which He ha ordained to bring about that nor mal growth in our spiritual lives at one time in his life, Izzak Wal-30. "And he said, How shall

**Government Meets** Farmers' Demands Men of Prairies Say Ottawa

Treated Them Very Kindly "How ya gonna biep 'ein down on the farm, now that they've seen Paree?" may well apply to

from the plains of Saskatchewan sofourn in the Capital. The business of presenting a petition to the Government urg-ing increase in the initial wheat payment concluded, they left Union Station glowing with praise for the way they had been treated and fully convinced the delega-tion had established a spirit of fellowship and better understanding between the people of the east and west and that the ties of federation which some people be-lieved to be in danger had been strengthened to a point that will naterially assist the furthering of our war effort.

To a considerable extent the government will meet the demands of the "on-to-Ottawa" delegation

basis which, under normal condi-

tions would return 325,000,000 bushels for delivery under the one

proposal, or 250,000,000 under the other.

Authorities here are concerned

MART KENNEY This is Mart Kenney, Canada's is really 'on the air' these day: in no uncertain terms! Monday night at 10 o'clock, he broadcasts of Westerners, in respect to wheat prices. The concessions made, however, will likely be linked up a half hour show on the Nationa with a proviso that the wheat growers restrict their acreage in Network for the Victory Loan; on Wednesday at 9.30, his regular weekly CBC Feature 'Sweet and 1942 as they did in 1941. Low,' and on Friday and Saturday oranted, it is probable the govnights at 11.15, broadcasts thru CKOC's facilities from the Brant Inn at Burlington. CKOC is also 90 cents per bushel, an increase of 20 cents per bushel, as an initial payment on the 1942 crop. But, privileged to be with the National Network carrying the Monday and Wednesday night shows! this would be on an arrangement

that growers restrict their deliv-Interesting sidelight on radio and Hollywood! Glamorous Lana Turner is dated by Bob Stack, young Hollywood luminary; they eries of wheat to about 325,000,-000 bushels.

An alternative suggestion is if dollar wheat is granted as an in-itial payment the deliveries to be dance to Tommy Dorsey's great music: they lunch at Dorsey's table, and when the dance is over kept down to 250,000,000 bushels from the 1942 crop.
No one can tell in advance what Dorsey takes Lana home. Accordthe crop will be, so the plan worked out will be on an acreage

## DRAGON SEED

By Pearl S. Buck The great masses of the Chinese people are peasant farmers, living on the lands that have been passed on to them by countless generations of honored ancestors.

They are content to live and toil upon these lands, to cherish them and to hold them in turn for their sons. Of such was Ling Tan who lived with his family on the family of their states, state

13 Beer

The Book Shelf | his sons go away to the hills to join in guerilla warfare against the enemy, Ling continues stub-bornly on the land he loves. Dragon Seed is a tale of war, of four long years of war in China. It is a story told with sympathy and authority of the Ling Tans of a great pence-loving a rice farm near Nanking when | ancient philosophy that "it seemed the East Ocean soldiers invaded | the greatest thing a man could do The bestial, unbelievable savagery of the Japanese brought tra-

gerly and heartbreak to the peace-ful home of Ling Tan. Although pany of Canada . . . Frice \$2.09.
