A TOPSY-TURVY world seems right side up again when viewed by an angler from the bank of a fast-flowing Canadian stream or from the prov of a canoe on a tranquil Canadian lake. Not does any form of recreation pay richer dividends in health at a time when physical fitness plays so vital a role in war work. Canadians are particularly fortunate in the variety of fishing waters at their disposal and wide choice of species they contain. These range from giant Atlantic tuma and the west coast's fighting Tyee salmon to the scrappy musclunge, pickerel, pike, base, salmon, trout and other fresh water favorites inhabiting Canada's many inland lakes and streams.
