MEN'S AND BOYS' WEAR

Markdale and District Boys in Canada's Armed Forces

We list below the names and addresses of a number of the boys from Markdale and district who are serving with the armed forces overseas. Next week we will publish the balance of those serving overseas as well as those who are still in training in Canada. The names published will not be a complete list for there are a number who have signed up and did not give us their address. Each week the publishers of The Standard send the paper to these boys as a gift to keep them in touch with home town events.

fruits which are eaten before they are cooked or preserved, and also can be used for vegetables. It has not been the practice for fruit growers to use second-hand baskets, and they are not anxious to do so now, but they will have to fall back on used containers if it is not possible to market the crop otherwise.

ton, St. Catharines and Windsor. Accordingly, householders are asked to co-operate by returning fruit and vegetable baskets to the retailer, as soon as they have removed the fruit and vegetables therein.

The shortage of these containers is explained by: (1) Shortage of manufacturing capacity. (2) A good fruit crop. (3) Limitation of canning capacity, due to shortage of labor.

Under the reclamation plan, the fruit growers will market in used baskets of No. 1 grade, defined in the order as clean, structurally sound, with no mildew, practically free from stains, and with marks or names obliterated or crossed out. No. 2 baskets, structurally sound but which may be slightly stained or soiled, can be used to market

"The Man's Crazy"

(Walkerton Herald-Times)
The official wielder of the police baton in the village of Mildmay received an imperative S.O.S. from an excited housewife on one of the main highways of the Township of Carriek one day last week, stating that a man on the roadway was acting in a most unusual manner and that she was positive "the man was crazy". In recounting the circumstances by phone to the police the farmer's wife stated that the gent in question would stealthily approach a certain

telephone pole, tap it with a stick several times, brush it with his hand and then amid shouts beat it down the road as if pursued by Old Nick in person. This occurred so frequently that the lady became thoroughly alarmed and sent the hurry up call for the cop.

The Carrick's capital officialdom lost no time in answering the summons and on approaching the scene, watched the antics of his quarry which continued as described by his informant.

On swooping in to make the kill, as it were, the cop, however, in place of a demented knight of the road, discovered that the supposedly eccentric one was none other than a

well-known apiarist attempting to corral a colony of bees, which had settled on the telephone pole by brushing them into a box at the base of the timber.

It was a case of much ado about nothing and was the cop's face red when he discovered how he had been "taken in" as the saying is.

NOTICE! WATER USERS

Those using water in Markdale are again reminded that lawn taps are to be used only between the hours of 7 and 9 p.m. You are not playing the game fair with yourself and your neighbours. Please be fair. Waterworks System.

Make Better Jams and Jellies

Use CERTO - it gives SURE RESULTS

CERTO is Pectin Extracted from Fruit

When pectin is used in making jam and jelly, the Wartime Prices and Trade Board Order No 150 allows you to use sugar not in excess of one and one-quarter pounds of sugar for each pound of fruit. On the basis that "fruit" means "unprepared" fruit, this allows you to make your jams and jellies the Certo way which gives you approximately two-thirds more jam or jelly from the same amount of fruit.

Book of 72 Tested Recipes under label of every CERTO bottle
