morality and sin. Now, beneath all
this is war mongering sympathy, toler-
ance and an ever-widening list of
power. The state, instead of being
the servant of God, has itself become
the deity of which Hitler is the per-
sonal symbol. Thus it is soldiers for
the world, rich and blood to dye its
battlefields. Schools are not for
the purpose of education from dark-
ness to light but into darkness. They
are for the propagation of lies, bat-
tered, prejudices, the moulding of
mass psychology so that every boy
and every girl a mother for Hit-
ler, and every Nazi counts it the
highest honour to die, or to give
body and soul to Hitler, the symbol
of the defilement of the Nazi state.
