terial was heavy.

treated north last week through Tunisia, says the New York Times. Between Gabes and Bizerte the gnarled trunks and dome-shaped foliage of 16,000,000 olive trees dominate the land over which his forces moved. From the south the British Eighth Army, with its deadly train of 3,000 guns, pressed American and French troops worked their way through his mine fields to threaten his flank. His northern stronghold was under attack by the British First Army. Overhead American aircraft in 100-plane flights hammered the highways along which his desert-dusty tanks and trucks pounded,

swept out to blast his base at Cag-liari and Messina across the Mediberranean in Sardinia and Sicily. The objective of the Allied armies was crystal clear. They proposed to destroy his army and drive him across the sea, back into Adolf Hitler's Fortress Eurmet the Panzer units sent to intercept it near the oasis of El Hamma. The battle took place at 4 o'clock in the afternoon. The British their healts to a battle took place. ope. To do that would be to win two of the greatest goals in the global strategy of the United Na-tions. It would permit launching drives into Southern Europe, through France, or Italy, or the Balkans, without fear that a German force might menace the African bases of the attacking

sun and smoke, often did not see their opponents until it was too late to fire. Overhead a screen of aircraft, specially armed to fight tanks, swooped to the attack. In this armies. And it would open the Mediterranean to Allied shipping, which now must travel the long, 14,000-mile route around Africa to reach the Middle East and India. part, making as many as 1,399 scrties in one day. American ground attacks farther north help-ed draw off some of Marshal Rom-The Marshal's Task The marshal's job was to stop the Allies short of these aims. It mel's strength and this contributed

was a galling, thankless task, far different from the glorious des-Under this combined attack the tiny that seemed reserved for him nine months ago when his Afrika Germans broke and ran. From that Korps thrust to the gates of Egypt and the laurels of Alexanmoment it became necessary for the Nazi marshal to retreat. The roads his columns took northward der the Great were almost within his grasp. He worked hard at his undertaking, exhausted every were historic. They had known the tread of Hannibal's elephants, the soft shuffling of St. Augustine's stratagem at his command in orsandals and the hoofbeats of Rog der to carry it out. He tried first to build a stronghold stretching the length of Tunisia's east coast, the Norman's armored horse. They led through a countryside low and flat, a corridor varying in width from twenty-five to fitty miles between the hills in the west and the sea in the eastlinking a tough center of resist-ance in the Tunis-Bizerte region of the north to another based on Along it were the towns of Gabes, Sfax, Sousse, that had been the strength of Carthage, colonial south, with a battle line strung 400 miles through the hills west of the coastal plains.

Empires. One of them, Siax, had trembled under the fire of modern warships when the French Fisel brought French colonial rule and aineteenth century civilization

Where along that corridor Mar shal Rommel would stand and fight was the chief problem for the Allied commanders. North of Gabes his rearguard showed sign ready for battle. Many observer thought the marshal would more all the way, as slowly as possible to his northern defense center is the Tunis-Bizerte region where he would try to hold.

The Allies would give him no respite there. Last week the posi-tion was under heavy attack by the British First Army which reached Mateur, but eighteen miles from Bizerte. But the land emained in the German favor, much as the land favored the American and Filipino forces on Ba Their flanks were guarde by the Mediterranean Sea, just as General Douglas MacArthur's flanks were protected by the South China Sea and the Bay of Manila, A low, rough, broken line of hills threw a protecting arm across much of the Nazi northern stronghold, but the hills fail to reach the northern coast, leaving a narrow doorway which must be Tunisia's Chief Cities

were Tunisia's two chief cities. Bizerte's lake, connected with the sea by a channel running through the city, contains a naval base second only to Toulon among France's Mediterranean bases. Tunis, near the site of ancient Carthage, is Tunisia's capital. Undrive into Poland, the Germans used land mines to hold the French on the Belfort triangle. ler its walls. St. Louis of France der its wans, St. Iouis of Flance died attempting to storm the city. Beyond this position there is no retreat this side of Europe for Marshal Rommel. And there were no signs last week that he intended to leave Africa. Strong forces, ated at 200,000 men and 1,-300 airplanes are at his command

Within this Axis stronghold

U. K. Lend-Lease From Italy he was presumably receiving reinforcements estimated at from 500 to 1,000 men a day The first hospital train built in Britain for the United States Army Medical Department was formally handed over recently to Brig-Gen. Paul R. Hawley. and from 75 to 125 tanks a month They crossed the Sicilian Straits, favorite hunting ground for Allied submarines and aircraft, in giant Messerschmitt 323's, six-engined planes believed capable of carrying 250 soldiers, and Siebel fer-ries, shallow-draft pontoon boats a car for sitting-up patients can carry nearly 300 wounded.

It also includes a pharmacy co difficult to torpedo. In the back-ground was the oft-beaten Italian Fleet, now perhaps under the com-mand of German officers It might and operating theatre, two kit-

Honor To "Number 10"

Let's have less nonsense from the friends of Joe, We laud, we love him; but the nonsense — no.

In 1940, when we bore the brunt
We could have done, boys, with a Second Front.
A Continent went down a cataract,
But Russia did not think it right to act.
Not ready? No. And who shall call her wrong?
Far better not to strike till you are strong.
Better perhaps, but this was not our fate,
To make new treaties with the man you hate.
Alas, these sly manoeuvres had to end,
When Hitler leapt upon his largest friend.
(And if he had not, I wonder, by the way,
If Russia would be in the war to-day?)

But who rushed out to aid the giant then,
A giant rich in corn, and oil, and men
Long, long prepared, and having, so they say,
The most enlightened ruler of the day,
This tiny Island, antiquated, tired,
Effete, capitalist, and uninspired;
This tiny Island, wounded in the war
Through taking tyrants on two years before.

Honor the Kremlin, boys, but, now and then, Admit some signs of grace at No. 10.
