# We are planning and buying our dream house of tomorrow

The architect has submitted plans and we spend many an hour making little changes in order to have everything just as we always wanted it.

Perhaps you will say we are dreaming but we know that we are not. George and I, like thousands of newly married couples, always wanted a home of our own, but it seemed to get farther and

seemed to grow—now we know why. It was too easy to write a cheque for all the things we desired.

But since we have been investing in Victory Bonds and War Savings Certificates our savings have grown with remarkable speed. The reason of cause is that we think twice before we "cash in" a hundred dollar Victory Bond for some small purchase, because we know that the rest of the money will be wasted on things we do not really need. really need.
That is why we will be able to build our dream-house right after Victory is achieved.
