FAT IS AMMUNITION!

Fat and bone conservation begins at home and ends in the firing line

- DO YOU KNOW -

One pound of fat supplies | Two pounds of fat will fire a enough glycerine to fire 150 bullets from a Bren

burst of 20 cannon shells from a Spitfire or 10 antiaircraft shells.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

OUR FIGHTERS DEPEND ON YOU

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fats."

The above paragraph is a direct quotation from Order A-642 of The Wartima Prices and Trade Board. "Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered. "Bones" means raw or cooked bones of cattle, sheep and hogs.

EVERY OUNCE COUNTS!

SAVE AND STRAIN EVERY DROP TO SPEED VICTORY. SELL IT TO YOUR BUTCHER OR GIVE IT TO YOUR SALVAGE COMMITTEE.

NOTICE TO BUTCHERS, HOTELS, ETC.

You have been mailed a copy of Order A-642. This Order affects operators of hotels, restaurants and other establishments where meals are served. It is of immediate importance to butchers and slaughterers. If your copy has been lost, you can obtain another from the nearest office of The Wartime Prices and Trade Board.
