# QUANTITY OF MONEY and volume of credit are matters of high national monetary policy.

Canada's Chartered Banks exist to perform two main services:

1. They receive the savings and other funds of the public, who thus build up bank balances in the form of savings and

2. They advance money to communities, enterprises and persons to serve their

Along with these main functions the banks, through more than 3,000 branches and sub-agencies, render a large number of other important services related to local and national needs -services which have greatly increased as a result of the war.

But the quantity of money in

credit, are matters of high national monetary policy. The nation's own central bank, the Bank of Canada, determines them. The Bank of Canada makes extensive use of the Chartered Banks' facilities in giving effect to these policies.

existence in the country at any

The Chartered Banks' responsibility, clearly established and regulated by the Bank Act, is in the realm of commercial banking—that is, to receive deposits and to serve the needs of trade and industry.

#### Digest of Premier Drew's Radio Address

Ontario's first Agriculture Com mittee of Inquiry is now at work are being appointed to inquire into fuel, mining, labor, forestry and other problems. Premier George

As a prelude to practical remedie for agriculture in the province Pre mier Drew said the committee with Archibald Leitch of Guelph as Chair man is "conducting an inquiry and time to time on every phase of agriculture in this province." committee would be requested to go eyond the ordinary details of actul farming and make recomme dations on farm education and other similar subjects.

Premier Drew replied to critics who had said his Governmen would be limited in its efforts to give a strong administration "because we have not a clear majority.

"It has also been said that w must make compromises to obtain support," he said. "Let me remove any doubts on that score. We will govern the province and introduce legislation just as we would have done if we possessed a large major ty. It will be for the members o the Legislature to decide whether they intend to support that legislation or not. We have no thought of temporizing and we are quite pre pared to face the consequences of standing by what we said we would

At the first Cabinet meeting, he pointed out, that he had fulfilled his election promise to cancel timber ontracts which disposed of vas treas that had not been developed i cordance with agreements. Conracts had been cancelled, thus re urning 13,729,280 acres of the finest timber lands to the control of the people of the province.

Another preparatory step towar the promised organization of forest esources had been the appointmen of a committee of three, headed by Hon. Frank Hughes, K.C., in an effort to get the Abitibi Power and Paper Co., out of receivership. Premier Drew also announced th

mittees to enquire into the mining and fuel problems in Ontario. An imquiry into labor relation would be instituted, he declared

# A DAY WILL COME ..

\*all of us. To speed that day is in our power. We at home...in factories, in offices, on farms...work long hours to hurry it along. We go without, and lend our savings to provide what he needs to win quickly. This is the least that anyone can do. And when that day comes - you'll want to welcome him - and to help him make his hopes come true.

To speed Victory, plan to buy as many Victory Bonds as you can.

A VICTORY BOND?

A VICTORY BOND is the promise of

the Dominion of Canada to repay in cash the face value of the Bond on the

date of maturity with half-yearly

interest until that time. A Victory

Bond is the safest investment in Canada backed by the entire resources of the

Dominion. Canada has been issuing

bonds for 75 years, and has never failed

to pay every dollar of principal and

interest when due. A Victory Bond is

an asset readily marketable at any time.
