

**MODERN RUINS OF AN ANCIENT CITY**

How war has brought devastation to Naples, once one of Italy's most beautiful cities is evidenced in the photo above. It shows railroad tracks and buildings smashed and a street covered with the rubble of smashed buildings.

**Device Counts Bees Coming or Going**

In Harpenden, England, for experts studying crop pollination. The device records on a paper strip the passage of bees in and out of their hives. As the insects pass

through tiny gates the door actuate an electric relay, which makes operates a mechanical inker that in turn makes its mark on a paper band. Any entrance of a bee marks a cross, every exit a circle. From these records it is possible to check the activities of every bee in the hive.

**Have You Heard?**

The small daughter sat watching her mother making up her face, no doubt wondering what it was all about. When it came to the time for the application of the lipstick the small girl could contain herself no longer.

"What do you put all that on your face for, Mummie?" she asked.

"Mummie puts it on to make her look pretty," came the reply.

"I'm sorry I can't accept you, Bill, but circumstances over which I have no control prevent me."

"And what are those circumstances?"

"Your circumstances."

"Farmer Blunt," asked the college student who was working as a farmhand during his vacation, "do you think I'll ever become a successful agriculturist?"

"We-e-ll, you may," doubtfully replied Farmer Blunt, "but you'll never be a farmer!"

Passenger (to driver of old horse): "Can't you go any faster?"

Driver: "I could, sir, but I wouldn't like to leave my horse behind!"

Prospective Landlady: "How do you like the room as a whole?"

Prospective Tenant: "As a hole it's fine; as a room, not so good."

The rich uncle wrote to his nephew: "I am sending you the \$10 you requested, but must draw your attention to a spelling error in your last letter: '10' is written with one nought, not two."

**WHAT SCIENCE IS DOING**

**8,000 Photos A Second**

Various means have been developed whereby fast-moving machinery can be "stopped" photographically. One way is by the use of spark photography—the moving object being photographed by the exceedingly brief illumination provided by an electric spark. Such spark photography has caught the swift flight of a rifle bullet and its behavior on striking various kinds of objects.

Fast-moving machinery parts may also be "stopped" photographically by the use of a flashing or intermittent light. If the flashing light is perfectly synchronized with the engine movement, the wheel, piston, or other

part to be studied will appear to stand still.

Now, however, a special motion picture camera has been developed which is capable of taking 8,000 consecutive pictures a second, each with an exposure of 33 millionths of a second! Such amazingly-brief exposures not only "stop" the motion of machinery and other phenomena involving rapid movement but also make it possible to project the resulting film in slow motion for detailed analysis of the operation photographed.

This special research camera differs from the ordinary movie-taker in that the film flashes past the lens at a steady 70-mile-an-hour pace.

Pumpkin, cucumber and melons do not cross-pollinate and may be planted safely in the same garden.

**Roll your owners! Go for Ogdens**

In the early days, "Tin Lizzies" did not always roll smoothly but old-timers will tell you that Ogdens has always been a smooth tobacco. Why? Because it's a distinctive blend of choice, ripe tobacco—worthy of its famous name—Ogdens'. You try it—and today.

**HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY**

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Iloid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore under you. Hem-Iloid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic condition when such a fine remedy may be had at such a small cost.

If you try Hem-Iloid and are not entirely pleased with the results, your druggist will gladly return your money.
