

Roll your owners! Go for Ogdens

Snowshoes were the accepted winter footwear for old-timers in the West... Ogdens' was their accepted smoke all the year round. Follow their example. You'll find it's not just another tobacco but a distinctive blend worthy of its famous name.

Ogdens' quality for pipe smokers, too, in Ogdens' Cut Plug

WHAT SCIENCE IS DOING

SHIP LAUNCHINGS

Ships, as a rule, are launched stern first. However, they have been launched upside down, in sections, and sideways.

The sideways method of launching is quite commonly practiced in Great Lakes shipyards and in shipbuilding plants located on narrow rivers.

One reason for sideways launching is that there would not be sufficient "water way" in a narrow river for the more orthodox stern-launching method. Furthermore, in the side-launching system it is possible to have a series of craft on a single set of groundways (broad inclined tracks of heavy timbers stretching from the land into the water) each in a successive stage of construction, the ship nearest the water being the one nearest to completion.

Still another advantage is seen in the fact that sideways launching permits building the ship on an even keel, where stern-launched ships are necessarily built on a slant or incline which necessitates setting all upright members at an angle.

An especially ingenious form of sideways launching has been devised which eliminates the danger

of capsizing which otherwise attends this method and limits its use to vessels that are not top-heavy.

A huge two-basin lock, similar to a canal lock, is used. The vessel is constructed in one basin. Water is then pumped into the lock and the hull is floated to the other basin to be fitted out.

The water is then lowered to river level, and when the ship is completed the lock gate is opened and the ship can sail forth into the river channel without further "launching."

Improve Your Health by Correcting Sluggish KIDNEYS

This Way is Swift, Economical

Few conditions can wreck your health faster than disordered kidneys and inflamed bladder. Your back aches miserably. You have restless nights. You suffer leg cramps and rheumatic pains. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health.

Give them this help—quickly—with GOLD MEDAL Haarlem Oil Capsules. GOLD MEDAL Capsules contain accurately measured amounts of the original and genuine Haarlem Oil (Dutch Drops). You will be gratefully surprised at the way they relieve clogged kidneys and irritated bladder. Go to your druggist now and get a 40c box. Be sure you ask for GOLD MEDAL Haarlem Oil Capsules.

SOLDIERS RUB OUT TIRED ACHES

RECTAL SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost. If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

Relieves distress from MONTHLY FEMALE WEAKNESS

Lydia E. Pinkham's Vegetable Compound not only helps relieve monthly pain but also weak, nervous feelings—due to monthly menstrual disturbances. It helps build up resistance against distress of "difficult days." Made in Canada.

Modern Etiquette

By: Roberta Lee

1. If a couple know that their engagement is to be a long one, should a public announcement be made?
2. What is the meaning of "cave au lait" and how is it pronounced?
3. Should a guest, who has accidentally broken something, replace it with another?
4. Is one justified in asking for a book that someone has borrowed, if a long period of time has elapsed?
5. When should the guest at a church wedding extend best wishes and congratulations to the bride and bridegroom?
6. What is the correct way to eat stuffed celery?

NO TEMPORARY RELIEF FOR ME. I'VE SAID GOOD-BYE TO CONSTIPATION!

I'm working harder than ever these days. Have no time to be troubled by constipation due to lack of the right kind of "bulk" in my diet. Thank goodness there is a sensible way to correct that condition... instead of taking cathartics, which only give temporary relief. Why not try eating KELLOGG'S ALL-BRAN every morning and see

if this delicious cereal doesn't help you become "regular" naturally! Get your KELLOGG'S ALL-BRAN daily... drink plenty of water... and discover for yourself how easily your old "trouble" disappears. Get KELLOGG'S ALL-BRAN. Available in two convenient sizes at all grocers. Made by Kellogg's in London, Canada.

Answers

1. Yes; but the announcement should include "that no date has been set for the marriage." 2. It is a French phrase meaning coffee with milk. Pronounce ka-fa-ole, first a as in ask, second a as in day, o as in no, e as in let, accents on last syllable of each word. 3. Yes, it is the proper thing to do. 4. Yes, and you would be justified in not lending them another. Negligence such as this is seldom

excusable. 5. This should be done at the reception that follows the wedding. 6. Lift it to the mouth with the fingers.

ITCH STOPPED

For quick relief from itching of eczema, pimples, athlete's foot, scales, scabies, rashes and other externally caused skin troubles, use fast-acting, cooling, anti-itching, liquid D. D. D. Prescription. Creams, ointments, soothe irritation and quickly stop intense itching. 35c trial bottle proves it. Or money back. Ask your druggist today for D.D.D. PRESCRIPTION.

"Grooming" Locomotives for Wartime Work

"Grooming" is one of the highly important jobs accomplished daily in Canadian National Railway roundhouses throughout the System. The term applies to the servicing of locomotives before they leave the stalls to start on a long journey hauling a troop train or one of those big fast freights made up of carloads of war supplies and materials.

This grooming consists of filling the engine tender with coal and water; cleaning, greasing and oiling; making necessary adjustments and light running repairs; testing air brakes, electrical and water pump systems, and a thorough inspection of the locomotive to ensure perfect operation. This requires an average of one and

a half to two hours for a turn-about job, and three to four hours for a general servicing.

The photograph shows a fleet of locomotives awaiting attention with one of the giant 6200-type, Canadian National's latest design, embarking on the turntable under the guidance of a hostler to go on a track for its train.
