Germany Has Long Been A Nuisance

"The poor Germans," no matter what their punishment, will get less than they deserve. There must be some decent Germans, and if they suffer unjustly in the clean-up it will be because of the company they keep. The hard fact is that Germany, not merely "Nazi" Germany but Germany as a whole is a pestilential nuisance and has been that for many years. It is preposterous to suppose that even Hitler in a few years could turn a peace-loving nation into a nation dedicated to war, murder and loot. All he did was to take full advantage of characteristics displayed by Germany over many decades.

How Can I???

By Anne Ashley

Q. How can I make an inexpensive gargle for a sore throat?
A. Try using one-third teaspoon of salt in a glass of tepid water.

Q. How can I keep the house plants fresh if one is to be absent from home for a few days?
A. Soak a large sponge with water and place it on the dirt in the pot. The moisture will be absorbed and the plant will keep in good condition.

Q. How can I prevent breaking of fish when baking it?
A. When it is desired that baked fish be particularly nice, try slipping two strips of clean muslin under the fish before

Keep Eggs Cold And Also Covered

The way to keep eggs fresh longest is to have them not only cold but also covered, say reports from the Utah and Massachusetts State Experiment Stations.

The Utah station tested eggs that had been kept for a week according to various home practices. The eggs that rated highest quality were those that had been kept in the hydrator of the refrigerator, as fresh vegetables are kept. Eggs rating second and third place were those kept in a covered carton and an open container in the refrigerator. Within the week those kept in a cardboard carton in the cupboard of a warm kitchen had dropped from a C grade and some even had to be graded as "rots".

The Massachusetts Station found that fresh eggs could be kept a month without serious loss in quality, if they were covered and in a refrigerator where the temperature was held at 41 degrees F. Eggs stored in open containers like wire baskets gradually lost weight by drying out. Eggs kept in cartons often absorbed the flavor of the carton.

Have You Heard?

Everything about the R.A.F. station was interesting to the visitor, and he asked a never-ending stream of questions.

"Say," he exclaimed, "how is it that you have so many Scotsmen among your pilots?"

The guide, a bit fed up, snatched at the opportunity.

"Well, sir," he said, "since the Scots have learned that every cloud has a silver lining, we can't keep 'em out."

"Say, Aunt Melissah, what am a para-trooper?"

"Well, Honey, a para-trooper am a soldier what climbs down trees he never clumb up."

The man began explaining the meaning of various words in the English class.

"Now," she said, "the word 'rise' means to 'come into view'."

"Not always, teacher," promptly replied one pupil.

"Why not, Willie?"

"Mum says dad asked for one and so far she hasn't seen any sign of it."

A Clean Story

"... We were in the same predicament as the Berliners are in now. And yet, during the whole period of the London blitz, we had a sort of exhilaration. We were taking it. But we knew that we COULD take it. And, looking back, my clearest recollections are strangely enough more of the humorous side than the horror. I wonder, for instance if the raids on Berlin can produce an incident like this: We were clearing up the debris of a badly bombed house after one of the raids, when a rescue worker heard a sound of tapping coming

from inside an upturned bathtub. When we'd cleared the wreckage from it, the side of the bath lifted a few inches, and a timorous voice enquired, 'Are there any ladies present?' Yes, the occupant had been trapped having a bath when the bomb fell.—BBC Broadcast.

FASCIST VENGEANCE: DEATH AND PRISON

Regarded as the revenge of Mussolini and Hitler for their action in voting against H Duce in last July's Italian political crisis, thus precipitating his downfall, 19 members of the Grand Fascist Council were sentenced to death for "treason" at a special Fascist court at Verona, Italy. Among them were Count Galeazzo Ciano, ex-foreign minister and son-in-law of Mussolini; Tullio Cianetti, ex-communications minister; and Marshal Emilio de Bono, who led — and badly bungled — the 1935 Ethiopian invasion. A firing squad executed Ciano, De Bono, and two other Grand Councilors. Giuseppe Pareschi, former agriculture minister, and Luciano Gottardi, ex-president of the Fascist Confederation of Industrial Workers, Cinnetti was sentenced to 30 years in prison, possibly for having turned informers. Thirteen of the 19 were thought to have escaped abroad or to be in hiding.

Jack Miner Rolls Up Another Honor

Jack Miner, the Canadian Naturalist, who has ranked as Canada's best known private citizen for seven years in succession, has rolled up another honor in his career by being written up in an article by the famous writer, John Burton Tigrett, which has been accepted by The Saturday Evening Post and which is to appear in a future issue.

The story deals with Jack Miner's activities with special stress on his conservation efforts for bird life, which benefit both Canada and the United States. There are several paragraphs dealing with his methods of banding the birds to study their migration routes, each band having a verse of Scripture. The entire biography will be profusely illustrated throughout with colored photographs.

Q. How can I stimulate the growth of thin eyebrows?
A. By applying warm olive oil or vaseline every night before retiring. Or, dip the finger tips in lanolin and massage the brows every night.

Q. How can I prevent coal from burning too quickly?
A. This will not happen if a solution of one-half pound of washing soda to a gallon of water is sprinkled over the coal a few days before burning. It will also give more heat.
