

Easy to roll, delightful — to smoke

Ogden's

FINE CUT CIGARETTE TOBACCO

Have You Heard?

A young air corps officer stationed somewhere in Egypt was flying near the Great Pyramids, carrying out exercises in navigation and discovering his geographical position with a sextant.

"Yes, very," replied Smith. "She works on the theory that you can find whatever you want if you look where it wouldn't be if you did want it."

At the end of the first week away from home on a new job, the young husband wrote to his wife: "Made foreman—feather in my cap."

After the second week he wrote: "Made manager—another feather in my cap."

After the third week he wired: "Sacked—sent money."

His wife telegraphed back: "Use feathers. Fly home."

"Where did Mabel get that awful hat?"

"She won't tell. I think it's a military secret."

Modern Etiquette

By Rozeta Lee

- When one leaves from calling on a friend, should one apologize for staying so long, or for talking too much, or for hurrying away?
- What color in candles should be used for the dinner table?
- Is an office employee expected to give Christmas gifts to the other employees with whom she works?
- If a man and a woman are entering a street car or bus, which one of them should enter first?
- If two business women are lunching together, what size tip should they leave on the table?
- Is it the usual procedure for the bride to remove her veil before being seated at the breakfast table?

Answers

- No; expressions of this kind are self-conscious and stupid.
- The color of the candles should harmonize with the bowl or vase that contains the flowers for the centerpiece.
- No; this is not as all necessary.
- The woman should go first when entering but the man should precede when leaving the street car or bus.
- Twenty-five cents is sufficient for both, or if they prefer, fifteen cents each.
- No; she retains her veil.

How To Protect Eggs For Hatching

It is especially important that eggs for hatching should be collected several times a day in winter weather, says the Ottawa Farm Journal. The basis of plans in which they are collected should be lined with some material as a protection against frost. It must be remembered that in a fertilized egg the cell division begins to take place before the egg leaves the hen's body. If the egg is left exposed to intense frost this process may be so effectively checked at the outset that the germ will not develop when the egg is raised to incubating temperature.

Eggs which are to be incubated should be stored in bran in a room not lower than 50 degrees. Those which have come from a distance should be allowed to lie for 24 hours in a temperature of from 50 to 60 to a machine for incubating.

Muffins can help keep you regular

By eating several every day, and drinking plenty of water, you can get at constipation due to lack of dietary "bulk." If this is your trouble, try Kellogg's All-Brain Muffins.

2 Omelette 25¢
2 Egg-cakes 25¢
1 Egg 10¢
1 Bran 10¢
1 All-Brain 10¢

Blend shortening and sugar thoroughly. Add egg and beat well. Stir in All-Brain and milk; let soak until most of moisture is taken up. Stir flour with salt and baking powder. Add to first mixture and stir until most of moisture is taken up. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400° F.) about 30 minutes. Yield: 8 large muffins.

Kellogg's ALL-BRAIN
Made by Kellogg's in London, Canada.

OTTAWA REPORTS

That In Parliament Last Week A Price Floor Was Proposed For Staple Farm Products

Cheering news for Canada's farming community came last week in the Speech from the Throne at the opening of the fifth session of Canada's 19th Parliament. Proposals to introduce provision for a price floor for staple farm products to ensure stability for agriculture follows an announcement made some time ago by the Prime Minister that this measure was under consideration. No group in the Dominion has contributed more in hard work and human endurance to the winning of the war than the farmer and his family. The coming season will call for no less effort than in the previous years. A floor on farm products for the future would be an incentive to meet this call.

VOICE OF THE PRESS

SAVINGS BANKS IN RUSSIA

Russia thought it could wipe out the savings banks and did so by closing 15,000 branches of savings banks during the revolution. Now, however, there are more than 100,000 savings banks in Russia.

The Russians found a lot of fancy farms did not work, but there are people in Canada who keep advocating some of those theories still.

—Windsor Star.

AND THEY'RE NOT 100

An Englishman has just died at the age of 100 without ever having had a cold. He is the only man in the world who has been told about it but doesn't seem to know about it just the same.

THE WAR - WEEK - Commentary on Current Events

Why The R.A.F. Bomber Command Is Destroying Capital of Germany

The attack upon Berlin marks the highest yet reached in the bomber offensive, says Squadron Leader John Strachey in London Calling.

This attack is a deliberate attempt to deprive the enemy of the use of his capital city. L.A.F. Bomber Command has set out to make it impossible for the Nazis to use Berlin for the remainder of the war. Berlin is today the capital, not simply of Germany, but of Hitler's whole slave empire. Berlin is a city in a totally different class to Essen, Düsseldorf, or even Hamburg—or any other of the cities which Bomber Command has so far attacked.

Berlin is the fourth largest city in 1942 they could destroy every industrial centre in Germany with negligible losses to themselves.

Recently, we have been given an account of the work of our Pathfinder Force. The need for someone to find the path to the target is obvious — for naturally that same darkness which hides the bomber from the defending fighter also tends to hide the target from the bomber.

The Pathfinders are marking the target so that intensive concentrated bombing is being achieved. For Germany that's the most ominous development of all. For it is the concentration in both time and space that counts — the tons per minute per acre!

Personal discharged from the forces after November 1, 1943, are entitled to a clothing allowance of \$55 as part of their discharge grant.

Army Beauty Shops Help Men's Morale

Applied psychology is being used in the "beauty shops" which are maintained by the American Fifth Army in Italy, says the Windsor Star. The establishments of these depots shows the effort which is going into genius to maintain the morale and efficiency of our fighting men.

Much of the soldier's work makes it necessary for him, at times, to be dirty and bedraggled. But the making of these depots does not enjoy the same conditions. They are made to be clean and bright. They are made to be comfortable and to be a place where the soldier can get a good rest. The "beauty shops" are to be counted among the most valuable agencies for keeping the men in fighting trim.

Hevea Tree Main Source Of Rubber

From Hevea seeds taken from the Western Hemisphere in 1876 grew the fields on which the world has depended for ninety percent of its rubber since 1920, says Middle America Bureau. Replanted in Guatemala, Honduras and other parts in the Far East, these seedlings became nine million acres of rubber-producing trees.

Today the Hevea tree, the main source of natural rubber, has returned to the American tropics. Millions of seeds are being planted in three Middle American countries, Costa Rica, Honduras and Panama, to become our rubber plantations of tomorrow.

IF HEAD COLDS HANG ON..

DO THIS TO relieve discomforts, one of the best things you can do is put a good spoonful of home-made Vicks VapoRub in a bowl of boiling water.

"Then feel welcome relief come as you breathe in the steamy, medicated vapors that penetrate to the cold-congested upper breathing passages! See how this soothing irritation, quick coughing, and helps clear the head—bringing grand comfort.

FOR SOOTHING relief, rub throat, chest and back with VapoRub at bedtime. Vicks VapoRub works in hours—2 weeks—without bringing relief from distress.

Remember, it's VICKS VapoRub you want.

HELPLESS CAPTIVES OF THE JAPS

These are some of the Americans of Corregidor. They yielded to Japan's superior forces in what they thought was honorable surrender. They are being marched off to captivity. But many of them died on the way, and more died in prison camp, victims of the Japs' inhuman treatment, whose revelation through the U.S. Army and Navy report shocked the United Nations. The report indicated that, through starvation and torture, at least a third of American fighters captured in the Philippine Islands were killed.
