OTTAWA REPORTS

That Canada's Output Of Farm Machinery In 1945 Will Equal Average Of 1940 and 1941

Good news for farmers is Wartime Prices and Trade Board announcement that total tonnage of farm machinery to be produced in Canada in 1945 will equal the average output of 1940 and 1941, and there will be no rationing o farm machinery repairs, and no restrictions on the quantities these to be manufactured. The administrator of farm and construction machinery points out. however, that rationing of equipment will still be necessary next year and only the most urgent and essential needs can be In addition to the tonnage of farm equipment being made available for ordinary domestic use, the ad-ministrator said that Canadian manufacturers will produce an additional tonnage specifically for the establishment of war veterans on farms. Canada's contribution of farm equipment for rehabilitation under the United Nations Relie. and Rehabilitation Association program also will entail an additiona

A former Senior Livestock Field-man at Moncton, N.B., who has taken an active part in boys' and girls' farm club promotion, Ed mond F. Pineau, has been appoint ed Associate Chief, Livestock and Poultry Division, Production Service, Dominion Department of Agriculture. Mr. Pineau will be in charge of co-ordinating boys' and girls' farm club policies throughout the Dominion. He was among the first to form boys' and girls' clubs in New Brunswick and coached several provincial cham lion teams for the annual competition in Toronto.

Arrangements have been pleted with the British Food Mission for the purchase of any dried white peas produced in Canada in 1914, surplus to Canadian require ments, the Agriculture Department has just announced.

Dominion Experimental Station at Normandin, Que., has tried to do Canada's plan to deliver 600 million pounds of bacon to Britain away with stripping the cows by hand after milking them by machine during 1944 seems well on the way to fulfillment. Since the first of this year inspected packing plants I. A. Belzile of the Normandin Station says, "We have not suc-ceeded entirely with the old cows, have processed more than 200,000 that is, those milked by hand before ping the record of last fall when for the first time the weekly num-ber was 180,000. In order to meet milking machine was installed, but heifers started on the milking machine at their first lactation do British and domestic needs, the Dominion Department of Agrinot generally require stripping by culture advises that every good quality hog that can be produced quality nog will be required. Output Of Aircraft

THE WAR - WEEK - Commentary on Current Events

While the Continent shock to of Europe from the Bay of Bis-the thunder of bombs and the Berlin and Vichy radios stepped their judgment there was not a Berlin and Vichy radios stepped up their warnings to the captive peoples, the atmosphere of Bricould now handle even moderatetain, staging area for the Invaly heavy military traffic. Trains could still run, but the systems sion of Europe was one of calm and confidence, comments The New York Times, Observers in could no longer support emer-gency mobilization and move-London noted that on the surface there was nothing to indicate the final stage of preparations for the great test had been reached, that in various headquarters scattered throughout the city invasion plans were receiving a last careul scrutiny, that in the countryside around the capital as well is from the northern tip of Scotland to the westernmost point of Cornwall Britain was one vast armed camp, thronged with mea awaiting the signal to go.

equally methodical and tar-rang-From the English Char ner to Clermont-Ferrand, in central France, the Luitwaiie's bases and facilities were being smashed. Mood In Britain Londoners, and all Britons have been "sitting on top of volcano" so long they are neither While runways can be quickly restored, the damage done to particularly excited nor especially parked aircraft and to service and nervous. The hour when inva-sion becomes possible has been epair hangars cuts heavily into he operational value of these longed for as one which will mean the beginning of the end in fields, and to observers in Lon-don it seemed likely the Germans a war which for the British ha would have to rely on more relasted nearly five years. They view the coming Allied assault with a mixture of gladness, relief The Fortress Garrison and worry for their fighting men.
Tania Long, a member of The
New York Times staff in London, By the latest estimates the Germans are supposed to have sixty-

nine divisions - 760,000 men cables this description of the protationed or in reserve in Western invasion scene: "The war of ner Europe. Some of these are ai forces. Fifty-two divisions-572,000 men-are beieved to be in France ves from the German side hvaing no effect whatsoever. This is partly because the British have and the Low Countries under Field Marshal General Karl von Rundheard it all before, partly be-cause everyone is so busy there stedt. Within this command is a separate field army of nine to is no time to worry now abou what the Germans may do, partly because of the British lack of imtwelve divisions, to be moved wherever it is needed, probably un-der Field Marshal General Erwin agination, which stood them in such good stead in the earlier and darker periods of the war. Rommel. In Norway there are per-haps twelve divisions and in Den-"On the streets, in the trams mark five. Against this the Allied have in Britain forces numbered in and buses and restaurants, it the millions, representing British conversation but such things a Canadan, American and other Althe tulips in Birdcage Walk and the price of lettuce. There is lied armies, and with countless weaons of all kinds. practically no speculation as to the date of D-Day. Londoner

More than that, there is for Ger any the great threat in the east know it is coming and are willing All signs point to a large-scale pre-paration for a new Red Army ofhower. People preserve their nor ensive to start at the same time mal appearance. Reports from New York appearing in British s the invasion from the west. Most observers feel the main weight of papers, depicting the American people as sitting on the edges of their chairs, are read with some astonishment and persons arriving the attack will be aimed through Poland. Supporting this view have been the heavy Russian air assault during the last ten days on Ger in Britain remark with some be man communications centers behind wilderment on the calm normality. Threat of Encirclement

Except for the newspapers there is little to remind a Londoner Finally there is the prospect of an the great drama about to unfold Allied move in the south coincident with D-Day in the west. The Ger-The blasting of railroads went into its third week and British mans openly predict such an attack but are as unsure of where it will transportation experts said that come as they are in western Eur ope. Last week they claimed to have taken new defensive measures tane in a 100-mile deep stretch in southern France, central and nor-thern Italy and in the Balkans. HONORS HEROES Throughout this area Allied bom bers were pounding hard at large

This encircling threat, protracted day after day, emphasizes the Nazis' problem. Not knowing the "where, when and how much" of he Ailied plan they cannot make final disposition of their defending forces. They must be prepared for a fluid situation, for diversions, feints and secondary attacks. They must be able to keep their mobility to meet the chief threats as they develop. The air attacks on their communications are designed to revent just that.

Princess Beatrice

Queen Victoria, and last surviving on April 14. She is now at the It is 50 years since she married Prince Henry of Battenberg, and since his death in 1895 she has been lovernor of the Isle of Wight. Her widowed daughter, the former Queen of Spain, lives abroad. and is not likely to return to London until after the war ends.

Pruritis-Intense Itching

Relieved quickly by this **Medicinal Ointment**

There are two forms of itching which are especially distressing. First prunits vulvae from which only women suffer and second prunits ani—itching at the rectum from piles, in worms or variouse veins.

pin worms or variouse veins.

The causes of both these forms of intense itching are often difficult to locate but what you do want, at once, is relief from the severe and depressing itching.

Then let Dr. Chase's OINTMENT help you for it brings relief almost as quickly as applied. Once used it will always be kept at hand for quick use when the need arises. 60 cts. a box. Economy size jar \$2.00.

Dr. Chase's Ointment

Who Fights Whom?

Protecting Clothing From Clothes Moth

There are two main points to be observed in the protection of house hold articles subject to damage by moths. The articles to be stored should be thoroughly clean, and the receptacle in which they are placed should not have the slightest hole or crack through which a moth might enter. If there be such a means of entrance, the trunk, box drawer, bag or whatever receptacie is used, is not moth-proof.

Washable articles before being stowed away should be washed Clothing, blankets, and such-like articles, should be thoroughly brushed. Preferably, where possible, they should be sent to the dry cleaners before being placed in storage. To reduce the chance of infestation, moth balls or other repellent may be used. In trunks about, but a much tidier way is to obtain pin-up medallion repellents which may be bought at most stores. They may be pinned in cupboards, and on the inside of the lids of trunks and boxes. The fumes from these chemicals are deadly to insects, and being heavier than

FOR SALE

air they penetrate to the bottom of the receptacle. Particularly with bags, it is easy to suspend the repellent near the top of the bag above the hanger, and away from the clothes. Where naphthalene flakes can be obtained, an effective method is to enclose an ounce or two in a home-made cheese cloth bag and suspend it from the top. Moth balls may be used in the same
