They're TALKING ABOUT . . . a Ten-Cent Dollar!

They speak of it glibly...but what does it mean? It means that every pay-day if your boss paid you in crisp new one-dollar bills each of them would buy only a measly ten-cents' worth of goods $\overline{0^{\circ}}$ All those savings you've made with ten dimes to a dollar would shrink to the size of one 10°). That's inflation! So we're lucky in Canada that price ceilings and other anti-inflationary measures have kept our dollar value HIGH. In fact, a dollar goes further to-day...buys more goods than the dollar of 1918. Look at these prices, a pound of cocoa to-day compared to the it was then. The same quality towels now, were then. good dollars worth to-day. And remember-you protect your dollar value when you refuse to pay more than the ceiling price...denounce black markets ... buy Victory Bonds ..save.. pay off debts and help keep the cost of living down!

I promise to give my support to kecping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

Keep Your Dollar Value High!

Published by THE BREWING INDUSTRY (ONTARIO) to help reveal the dangers that inflation represents for all the people of the Nation.
