

"Our Family Regulator is DR. CHASE'S KIDNEY-LIVER PILLS"

OTTAWA REPORTS

That Canada Is Looking Forward To Regular Sale Of Consumer Goods With Russia

Russia's growing importance in the Canadian picture is reflected in the recent Government announcement that since April 1 nearly ten million pounds of lard have been shipped to the U.S.S.R. under Mutual Aid arrangements. Russia, three times the size of Canada, is next to the United States, our nearest neighbor. Unlike Canada, she has consistently been developing her farthest North territories as part of her economic plan. While details of our increasing trade are not revealed, it is known that weapons of war, aluminum and nickel, railway equipment, machine tools, cattle, horses and grain have gone forward from this country under Mutual Aid. Outside of Mutual Aid, Russia placed an order to the value of 23 million dollars for Canadian hydro-electric equipment a short time ago. In addition to the export of Canadian materials for the rebuilding of Soviet heavy industry and her broken cities, a regular sale of consumer goods with the U.S.S.R. is anticipated here.

Canada's increasingly large shipments of bacon to the United Kingdom were probably a major factor in the increase of the British ration from four to six ounces a week, according to Hon. J. C. Gardiner, Minister of Agriculture. An estimated 85% of Britain's bacon requirements are met by this Dominion. The quantity of hogs marketed in the first six months of this year was 5,250,000, an increase of 60% over the same period of 1943, the Department of Agriculture announced last week. Up to July 1, Canadian Meat Board purchases of bacon for the United Kingdom totalled 464,000-000 lbs.

A contract to supply the United Kingdom with a minimum of a hundred million lbs of beef over a two-year period was announced by Mr. Gardiner in the House of Commons on July 15. The Meat Board bought 53 million lbs. of beef in the last six months for shipment abroad. The Minister said that the new contract would not bring back meat rationing here as supplies are sufficient for both contract and domestic market needs.

The British empire covers about one-fourth of the world's habitable land surface.

WHAT SCIENCE IS DOING

Burns

Doctors at a United States naval hospital are successfully treating burns with a material of which the navy will never have a shortage—salt water.

The salt water used is a double strength solution of sodium chloride made up in the laboratory, but the doctors say that in an emergency, buckets of sea water could be utilized after heating to remove bacteria.

Capt. William Kirkham, chief of San Diego's plastic surgery service says the tip-off on the effectiveness of salt water for combat burns came during the British evacuation of Dunkerque in 1940.

He said burned men rescued from the water after some time fared better than did men whose burns had not been bathed in salt water.

"The explanation is simple," he said. "A burn is just like any other wound. It has to be kept clean and salt water keeps it clean."

The special solutions of salt water are applied in two ways: by saturating light-weight dressings, or by having the burned men bathe in a tub filled with the water. The burns are first cleaned with white soap and plain water.

Robots

(A tribute to the people of Southern England)

They say that we are scared to death,

They're driving us insane,

We cannot sleep by day or night,

We've robots on the brain.

These dark assassins of the air,

Without a human hand

Have paralysed us, every one,

On sea, and air, and land.

It won't be many days before

In terror and dismay,

We plead to Hitler on our knees

To keep robots away.

They've killed so many children,

Old men and women too,

The rest of us have all gone nuts

And don't know what to do.

If Germans will believe such stuff

They'd better soon get wise.

It's more of Goebbels' chloroform,

Based on a pack of lies.

For every robot that they send

(This is a certain bet)

Makes us more angry, steels our hearts,

And more determined yet.

We'll beat the daylight from the Hun,

And not the Hun, alone.

The dirty Jap will take the rap

And sink just like a stone.

We're one for all and all for one

At top the mighty four;

So let the robots freely fly,

They soon will send no more.

T. B. Gleave

'Maquis' Stir Up Trouble For Nazis

The Maquis, the French underground fighting organization which is causing the Germans so much trouble in southern France took its name from the appellation bestowed upon Corsican bandits in Napoleon's time. The word (pronounced mackee) means underground, particularly the thick brushwood that grows in Corsica and that furnished the bandits good hiding places.

Among the leaders of the Maquis are high officers of the French Army, who refused to bow to Nazi domination as relayed through Pétain's Vichy government.

HAPPY MEETING IN NORMANDY

Canadian soldiers and airmen are seen here in happy conversation with two women and a gendarme of the liberated town of Caen.

Modern Etiquette

By Roberta Lee

1. What kind of a person is considered a "bore"?

2. Should a maid be held responsible and asked to replace a dish that she has broken?

3. Is it necessary that a wedding gift always be sent before the wedding day?

4. If a first invitation is accepted from an acquaintance, does it mean that one expects to include this person who sent the invitation in one's own social life?

5. When entertaining guests and other people call, is it necessary to ask them to stay awhile?

6. Is it correct to telephone an acceptance to an invitation?

Answers

1. This is usually applied to one who monopolizes the conversation, who is always contradicting his companions, and one who knows better than anyone else about everything.

2. This would depend upon circumstances. If, as a rule, the maid is careful and conscientious, she should not be asked to do so.

3. Yes, always.

4. Yes; a social favor should not be accepted unless you expect to return it.

5. Yes; even if one does not care particularly about these people, it would be very in hospitable to display the least annoyance.

6. Not unless the invitation is extended to you by telephone.

5. Yes; even if one does not care particularly about these people, it would be very in hospitable to display the least annoyance.

6. Not unless the invitation is extended to you by telephone.

5. Yes; even if one does not care particularly about these people, it would be very in hospitable to display the least annoyance.

6. Not unless the invitation is extended to you by telephone.

5. Yes; even if one does not care particularly about these people, it would be very in hospitable to display the least annoyance.

6. Not unless the invitation is extended to you by telephone.

Effective Notices To Trespassers

A notice on the garden wall of a house at Bray, County Dublin, reads, "Beware of the Hydrangea." The resident, an old sea captain, had been annoyed by boys playing football. Every time they kicked the ball into the garden and climbed over the fence they trampled on his flowers. After he put up the notice he had no further trouble, the youngsters believing that hydrangea was the name of a snake.

Similarly, an American farmer has kept trespassers from his hazel nut bushes. A botanist told him the technical name of the hazel, and he put up the following sign: "Trespassers take warning. All persons entering this wood do so at their own risk, for though common snakes are not often found, the Corylus Americana abounds everywhere about here and never gives warning of its presence."

The tendon of Achilles, located in the heel, can resist a strain of 1,000 pounds without breaking.

Hon. Charles McCrea Predicts Great Future For Yellowknife District

Hon. Charles McCrea, K.C., president, Negus Mines, Ltd., expressed the opinion, on his recent return from a fortnight's visit to Yellowknife, Northwest Territory, that a great future awaits that district when the war is over. He found general expectation that all the liveliness in claim-staking, diamond-drilling and prospecting will result in new finds during the coming season.

When the war is over, reopening of the Con, Ryon, Ptarmigan and Thompson Lundmark mines and the active development of Giant Yellowknife will mean exceptional activity in the Yellowknife camp and there is every indication of its becoming an important gold area.

Mr. McCrea reports greatly improved air service since his last visit in 1940. The preliminary operation of the new landing field prepared by Canadian Pacific Airlines was a real recognition of the importance of the area. A through trip may now be made on wheels instead of by wheels partly, and pontoons partly, on the Yellowknife run.

Mr. McCrea expressed considerable pride in the fact that Negus Mines, started only in 1939, had nevertheless continued through all the difficult war years. He was accompanied by Mr. Watkin Samuel, A.C.S.M., vice-president and consulting engineer. The Bank-Estra group (Payne option) was studied carefully and adjoining claims staked. Previous prospecting and exploration of this group of claims had disclosed a number of gold finds and Samuel mapped out a drilling campaign. A drill is doing exploratory work near Kam Lake geological structure where favorable shears and veins containing gold indicate promise.

The 100 claims included in the Payne group and in the new claims will be maintained by all the work needed for that purpose. This is in line with Negus policy of continued production at the mine and rigorous exploration by drilling and prospecting in the new areas.

Keep Firearms From Children

Adults who own or have control over firearms also have a solemn obligation to keep them from children in whose hands they might be a menace to themselves and others. Tragic emphasis has been placed on this observation by a lengthy list of recent accidental shootings. Even with the sale of ammunition subject to priority permits, there has been entirely too much shooting by boys in and around the city. A rifle and box of ammunition around the house are an ever-present temptation to a small boy; a simple admonition to leave them alone often isn't enough. A .22 rifle is a highly lethal weapon and the carrying power of its ammunition might amaze many persons. It is not a toy. If you have firearms around the house, put them where young children cannot possibly get their hands on them.

Headache

Nothing is more depressing than a headache. Why suffer? Lamby's will give instant relief. Lamby's is good for earache, toothache, pains in back, stomach, bowels.

LAMBY'S HEADACHE POWDERS

THEIR GAME IS ENDED

While their fellow-countrymen suffered under Nazi oppression, the two French civilians in the photo above led a comparatively easy life as reward for collaborating with the Germans. They are hiding their faces after being sentenced to life imprisonment at hard labor.

Eisenhower Presented With Color Print

The four correspondents attached to Gen. Dwight D. Eisenhower have given him a present. It is a color print showing the use of flying rockets by the British Army 114 years ago, said a London radiocast.

The correspondents bought the print last week when they ducked into a shop to dodge a flying bomb, continued the radiocast.

STOP THE ITCH of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, pimples, scales, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Itch stops or your money back. Your druggist stocks D. D. D. PRESCRIPTION.

RHEUMATIC Pains! WASH THEM AWAY!

DOES YOUR BODY ACHE? Here's quick relief from miserable, neuritic, rheumatic, arthritic and lumbago pains—Drink water abundantly and rely upon "B.WELL" herbal remedy as an internal cleanser. As pain and fever producing acids are washed away—Pain must go! Relief may be felt right at the start. Take Mulveney's "B.WELL" regularly before retiring and wake up each morning feeling fine! Sold by over 2,000 druggists.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, weak, nervous irritable feelings, a bit blue at times—due to the functional "middle-age" period peculiar to women—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. It helps nature! Follow label directions. Worth trying!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

BABY CHICKS

BARGAINS IN TWO, THREE AND FOUR week old started chicks. Pullets two week old White Leghorns \$26.95 per hundred. Banded Rocks \$18.95, four week old Banded Rocks \$25.95. Shipped C.O.D. Also eight week old and up to laying free range pullets. Top Notch Chickeries, Guelph, Ont.

WHILE WE'RE HATCHING ONLY to order for day-olds, we have a limited quantity of started June chicks for quick ordering: cockerels, Leghorn pullets, and heavy breeds, pullets and unsexed. Bray Hatchery, 130 John St., Hamilton, Ont.

STARTED CHICK BARGAINS. pullets: Banded Rocks four weeks old \$26.50, three weeks old \$23.50, two weeks old \$19.50. Also non-sexed and pullets in White Leghorns, Banded Rocks. Assorted heavy, light and medium breeds range pullets 8 weeks to laying. Free catalogue. Tweddle Chick Hatcheries Limited, Fergus, Ont.
