An Outline Of Lord Vansittart's Twelve Points To Win The Peace

The "Win the Peace" Movement, of which Lord Vansittart has accepted the presidency, has planned the notice of the public the 12-poir "peace charter", says the Manchester Guardian. 1. The unconditional surrender

of Germany and of the other Axis and their satellite Powers. 2. The effective occupation

Germany by an Allied Army and Air Force and the establishment of an inter-Allied Council of Control, to be maintained until it is decided by the Governments concerned to be no longer necessary, 3. The arrest and trial of per-

sons believed guilty of war crimes in the countries where they were committed. Neutral countries to be requested not to give sanctuary to any war criminals. . 4. The complete demobilization and disarmament of all German

armed forces, including the surren-der of the German fleet and Luftwasse; the same procedure to be applied to the other Axis Powers. 5. The police forces in Germany to be regional and free from cen-tral control and to be demilitarized.

6. The abolition in Germany of all military or semi-military training at any age in any form what-ever, including the abolition of the in your house. officer's corps and training corps. 7. The evacuation of all territories invaded by the Axis Powers.

8. The restoration of, or compen-sation for, loot, machinery, and equipment removed or destroyed. Also the restoration of, or compensation for, commercial and indus-trial interests forcibly acquired or

9. The effective control and where required, the closing dowh of Germany's war potentials, in-cluding aviation in all its forms. 10. No financial loans or assistance to be permitted to Germany or to any of the other Axis Powers without the approval of

Nations.

11. The curricula of school and

university studies to be under inter-Allied supervision and advice until the re-education of the German people is assured in accordance with 12. The German radio and all

propaganda to be under inter-Allied supervision for such time as may

At the opening meeting in Man-chester Lord Vansittart said it was conceivable that the end of the war might come at any time within 12 months from the coming winter, and we had therefore got to be prepared. "Whom are you going to be-lieve," he asked — "those who know the truth about Germany or those who don't? If this country for the third time refuses to face the facts you will have a third German war upon you in 10 years."

Too Many Farm Accidents Says Collingwood Enterprise News

The cold truth is that the ratio of preventable accidents in agricul-ture is higher than in any other in-dustry. Many hundreds of farmers, nembers of their families and workers on farms are killed and many thousands injured every year in Canada as the result of acci-dents, most of which could have been prevented.
