OTTAWA REPORTS

That Canadian Wheat Supply In 1945 Will Probably Be 10 to 15% Less Than In 1944

Canada's wheat surplus at th close of the current crop year is expected to be between 330,000,000 and 350,000,000 bushels compared with 594,000,000 at the end of July 1943, but crop prospects are such as to suggest that total wheat supplies in Canada during the next 12 months will be perhaps only 10 to 15% less than they were in the crop year just coming to a close.

Reduction in prices of imported farm machinery, as a result of the Budget announcement of the canellation of duty and war exchange, will amount to about 91/2% on general line implements, 111/2% on cream separators, 51/2% on tractors and 5% on tractor repair parts, ac-cording to H. H. Bloom, admin-lstrator of Farm Machinery for Wartime Prices and Trade Board.

The new Federal bill to stabilize prices of agricultural products has its keynote in the clause providing that in prescribing prices, the ad-ministering board "shall endeavour to ensure adequate and stable returns for agriculture by pro-moting orderly adjustment from war to peace conditions, and shall ship between the returns from agriculture and those from other

Legislation provides for the set-ting up of a Board of three to administer the Act and regulations passed from time to time. It au-thorizes the Board to prescribe, with the approval of the Governorin-Council, prices at which the Board may purchase agricultural products in the market. Two alter-nate methods of stabilizing oper-ations are provided for: first, that the Board may purchase products at the prices prescribed, according Acts now in existence, or which may be set up by the Board. In the alternative, the Board is empowered to pay to producers the ifference between the prices precribed by the Board for any product, and the average price at the open market, in case the average market price is below the prescribed price. Either method may be used at any time according to what the Board determines in necessary. A revolving fund of not more than \$200,000,000 is prowided by the Act for the Board's operation. All agricultural pro-

You Can Profit From "DRILL-HOLE NEWS"

That's the name of our pub-lication, which brings gold-share speculators up to date with latest diamond-drilling progress reports of companies in the boom camps.

It will also keep you posted on the potential big money-makers in the drill-hole group of stocks, particularly of companies in the Yellowknife, Bourlamaque and Mud Lake Districts.

No one who wants to make money in gold mining shares can afford to be without our "Drill-Hole News." and it's yours for the asking, without obligation. Send for your first copy NOW.

UNITED SECURITIES CO. 171 Bay Street, Toronto 1, Ont.

Strawboard Used In Containers

Those who are studying the request of the Hinde & Dauch Paper Company for wheat, rye and oat straw may be influenced by the knowledge that strawboard is urgently needed by the Department of Munitions and Supply. Strawboard is used extensively, in the manufacture of corrugated shipping containers for overseas shipments. It is also used in the packaging of certain foods for civilian requirements.
