H. V. WALES, Clerk

GORING

We are sorry to report Jack Breadner has been confined to his bed. We wish him a speedy recovery.

Messrs. Archie and W. J. Wood have returned from a trip to the West. W. J. Wood remained for a few days in Toronto.

Mr. and Mrs. Leslie Shepherdson spent Sunday with Mr. Babbington and family of Mesford.

Mr. and Mrs. Levi Postage and Audrey spent Sunday with Mr. and Mrs. Ernest Wood.

Mrs. Emma Parker visited with Miss Martha Wood.

Messrs. Archie Wood and W. J. Wood were callers at Mr. Hugh Caswell's.

Mr. and Mrs. Harold Parker and family visited with Mr. and Mrs. Wilbert Menary.

Mrs. Emma Parker visited with Miss Martha Wood.

Mr. and Mrs. Earl Plummer and family and Messrs. Fred and Charles Wilkinson of Duncan spent Sunday with Mr. and Mrs. Ross Breadner.

Mr. and Mrs. Charles Soul and Jimmie spent Sunday evening with Mr. and Mrs. Harold Parker and Mrs. Emma Parker.

Mr. and Mrs. Lorne Breadner and boys visited with Mr. and Mrs. Wilbert Skippen of Heathcote.

VANDELEUR

Anniversary services will be held in Vandeleur Church next Sunday afternoon and evening at 3 and 8 o'clock. Rev. S. E. Annis of Owen Sound will officiate.

Vandeleur Football Team, champions of the Centre Grey League, went to Holland Centre on Thursday evening of last week and played the team of that place, who are the champions of the North Grey League. The score was 8-7 in favour of Vandeleur. The game was the third in the play-off series, which now stands at one win each and one game tied. Norman Genoe and M. Buchanan were pluckers for the local boys and Pat Weber was catcher.

The pastor, Rev. N. Caswell, conducted a mid-week meeting at the home of Mr. and Mrs. James Harbottle on Thursday evening last.

The members of the Women's Association had a very successful quilting in the church on Wednesday afternoon last.

Mrs. Jim Cargoe is convalescing after a recent operation in Markdale hospital.

Mr. and Mrs. Harold Fawcett and family of Burlington spent the weekend with the former sister, Mrs. G. Weyvill, Mr. Weyvill and family. Gordon returned with them and will holiday at Burlington and Hamilton for a few days.

Quite a number from here, including the teacher, Miss Connors and many of the pupils, attended Owen Sound fair on Monday.

Mr. H. I. Graham manager of the Flesherton Co-Operative Store to Toronto on Wednesday of last week to attend a meeting of the Co-Operative companies of Ontario which was held in the King Edward hotel. They were the guests of the United Farmers Co-Operative Co. of Ontario.

WORTH WHILE

Wasn't it?

Citizens of Ontario have responded splendidly in support of necessary restrictions in the use of electricity. Incidents from "dim out" conditions, darkened store windows and poorly lighted streets have been patriotically accepted in order to save power for the tools of victory. The additional voluntary savings of power by Ontario people also contributed substantially to the victories in Europe.

Your Hydro, which had the responsibility of carrying out the orders of the Dominion Power Controller in Ontario, is grateful for the co-operation of Hydro users.

One trying phase of the war is passing. Now, by conserving and concentrating our efforts for final victory, we may look forward with confidence to an early day when abundant strength will be available for peacetime use. The added greater light and safety to more Ontario streets and homes, and take over innumerable tasks on farms, in our homes, and in industries.

Plan now to take full advantage, after victory, of the added leisure, convenience and safety that abundant electricity can bring to you.

LIFE INSURANCE

Into One Pocket—Sure!

but OUT of the other

Each of us is both consumer and producer.

As a producer each of us would like to get MORE money for our goods or services.

As a consumer each of us wants the costs of living kept down.

But we can't have it both ways.

As long as goods are scarce and money plentiful, prices have to be controlled or they'd jump sky high.

If prices are to be kept down, then costs of production including salaries, wages and raw materials must also be controlled.

One Person Can Start It!

When any one of us—

- offers to pay more than legal prices;
- asks higher returns for his services;
- asks higher prices for his goods.

He helps start a chain that forces every one else to do the same and nobody is better off.

THIS IS ONE OF A SERIES ISSUED BY THE GOVERNMENT OF CANADA TO EMPHASIZE THE IMPORTANCE OF PREVENTING FURTHER RISE IN THE COST OF LIVING NOW, AND DEFLATION LATER.

George Lockhart, M. P. P.
Farmer Member for Rainy River

A WEEKLY EDITOR LOOKS AT Ottawa

Within specialty for the weekly newspaper of Canada.

The mushrooming of Canada's chemical research and production, impelled by the needs of war, will make a thrilling chapter in the history of World War II. It will be the story of an astounding job by our scientists and industry.

Canada's "chemical war" program is getting a peek behind the scenes. Starting practically at scratch in 1939, Canada's "chemical war" program has produced 2,200,000 tons of chemical and shell-filling plants. Only completed 50 projects for explosive, chemical and shell-filling plants. Only 100,000,000 rounds of gun ammunition, grenades, mines, bombs, etc., and hundreds and hundreds of millions of small arms ammunition and our high explosives are recorded.

The busy bee takes a hand in the used on every fighting front. Some war effort. We didn't think about it that way until we read an item about it in a Department of Agriculture bulletin: "It appealed to beekeepers—and lots of them read this column—conserve every scrap of beeswax possible this coming winter. Do you know beeswax is mizable with oils and fats, plays a prominent part in the manufacture of ointments and cerates for wounded. (Cerates is a pharmaceutical preparation for external application). Beeswax is also used in making casts, modelling profile maps of war, and candles."

Gold production in Canada has been showing some fall-off. Our gold production totaled 256,618 ounces (fine) last July as against 263,663 for the same month a year ago. During the first seven months of 1944, production was 1,758,415 fine ounces, somewhat down from the figure of 2,265,363 for the same period last year.

The "navy is here" for a 77-year-old Newfoundland lady, Mrs. Margaret Trice, who just recently saw her very first movie by courtesy of the Royal Canadian Navy. At a rest camp in Newfie, near where she does a lot of washing and pressing for the "Blonde for Victory" campaign, she was just given and is sure the invention is here to stay.

The Canadian Army is being quick to move against a rising incidence of the T.B. rate and a survey of 5,000 men "test group," selected from every military district in Canada, is being made. There has been a gradual increase in pulmonary tuberculosis in the army troops in Canada. Only five cases were returned to Canada up to July, 1941. An officer of the Army Medical Service headquarters said: "Because of bombing damage to hospitals, bombing of Canada and subordination of civilian interests to the war effort in Britain, the T.B. rate rose, and undoubtedly the Canadian troops, through contact with civilians, led to increased incidence in our army. The survey should catch many cases in their early stages, provide information for counter-measures. Our medical men are on the job."

Canada's importance both in the war and in the prospective critical post-war period was emphasized in the UNRRA conference held in Montreal. Besides raising a tremendous amount of food for relief of war-torn countries Canada has other commitments, current and for the future. When it came to allocations for the UNRRA's request for 182,000,000 yards of woolen textiles resulted in an allocation of 2,200,000 yards to produce 17,500 tons of soap for them in the next year. Out of an estimated need of 180,000 tons of farm machinery for liberated areas we have been asked to supply 24,000 tons. This program entailed an expenditure of only \$150,000 on properties owned by the Dominion, excluding the \$48,000,000 synthetic rubber plant.

Our weekly Consumers Branch item. Procuring underwear for their children's winter needs is again uppermost in the minds of Canadian mothers, and while there is some remarking the stores are being looked to for a certain amount. The branch has a special message for women in this connection. The production of children's underwear has been increased with many factors are making fewer combinations for grown-ups. In order to get more yards for underwear, primary cotton mills, before making fabric, have been required to divert spinning away in a Department of Agriculture facilities to underwear yarn production. "Buy not two when one will do" is the slogan. In spite of greatly increased production, there is still not enough to supply everybody with all they would like. If they will buy only what they actually need, there should be sufficient for everybody.

The Wartime Prices and Trade Board has restricted an order of May, 1942 which prohibited farm implement dealers and manufacturers from exhibiting farm machinery at fairs, exhibitions, conventions, rodeos, etc. There has been an upsurge in interest in the farm industry at the time of recent years. This order is an encouraging note. Farmers do like farm exhibits when attending fairs.

In normal times Canada's fuel needs absorb 30 million tons of coal per year, and added to that are about ten million cords of bushwood, substantial quantities of sawwood and thousands of tons of sawdust and mill waste. The first movie by courtesy of the Royal Canadian Navy. At a rest camp in Newfie, near where she does a lot of washing and pressing for the "Blonde for Victory" campaign, she was just given and is sure the invention is here to stay.

Canada's export of domestic merchandise during last month was valued at \$277 million down about \$20 million from the preceding month. It was over \$200 million in the corresponding month of 1943 but in the first eight months of this year compared to last, we were up 22 per cent. The value of our total export trade for 1944 will be over three billion dollars, Trade Minister MacKinnon estimates.

Taxation doesn't sound like a "control" but nevertheless the government's taxation policy is another weapon in the fight to keep down the cost of living. Taxes serve a twofold purpose. First, they provide the money to pay the cost of war, and of ordinary government services. Secondly, taxes reduce excess purchasing power, and thus are an important part of the stabilization program. The same is true of savings, and that's where the 7th Victory Loan comes in. They have to pay for the war, and curb excess purchasing power. The government has followed the policy of borrowing as much as possible from the individual Canadian, rather than from banks and financial institutions.

ROSEDALE

Mr. and Mrs. John Menary and daughters visited on Sunday with Mr. and Mrs. A. Morrison of Hogon.

Mr. and Mrs. Wm. Smart of Cherry Grove spent Sunday with Mr. and Mrs. Edwin Boyce.

Mr. and Mrs. Harry Hawken of Markdale spent Sunday with Mr. and Mrs. Chester Rodman and attended the service in Parkway Church in the evening.

Mrs. Ernest Smart and Mrs. Chester Rodman spent Monday afternoon with Mrs. Harry Wyrvill and packed boxes for the boys overseas.

Mr. and Mrs. Dennis Wyrvill and Ronnie of Thornbury spent the weekend at their home here.

Mr. and Mrs. D. Wyrvill and son and Mr. and Mrs. H. Wyrvill visited on Sunday with Mr. and Mrs. Robt. Jerry of Beaverville.

Sunday visitors with Mr. and Mrs. John Miller and sons were Mr. and Mrs. John Bowler and Jimmy of Grotting and Masters Bob and Kenny Thompson and Ted Menary.

The combine is busy cutting clover in this community.

Mr. Jim Menary is picking apples near Thornbury.

CREAM

There is a definite shortage of butter at present, therefore the butter market has risen to the ceiling and will no doubt stay there. We, in accordance, have raised our cream price. It will pay you to put forth the maximum effort to produce more cream. Bring it in or ship it to us.

POULTRY

We are dressing poultry right along. It will pay you to bring your poultry in, or phone us to have our truck call. To satisfy you is our main object. Good quality poultry demands top prices at all times.

Thrift

IS PRACTICAL PATRIOTISM

How many ways can you save ... to LEND TO CANADA?

In the homes, all over Canada, loyal, patriotic women are discovering new ways to economize... new ways to save money to lend to their country. A little saved here and a little saved there provides money to lend to billions when tallied up.

The amount that you may lend to your country may seem a small sum to you, but pennies make dimes and dimes make dollars, and Canada needs every single dollar that every Canadian can save and lend. Canada's need for borrowing is greater now than ever before. Every Canadian must lend, and lend more than before. Money you save and invest in Victory Bonds will benefit you in a personal way too. You will have cash, when the war is over, to buy things you want for your home... things you are doing without now... cash to pay on a new car... to pay on a new car.
